alphabet and the whole country is in a state of panic. A is for Mrs. Ascher in Andover, B is for Betty Barnard in Bexhill, C is for Sir Carmichael Clarke in Churston. With each murder, the killer is getting more confident—but leaving a trail of deliberate clues to taunt the proud Hercule Poirot might just prove to be the first, and fatal, mistake.

"Possibly the best shocker ever written." — The English Review
Dr. Edmund Bickleigh married above his station. Although popular and well respected in his little Devonshire community, he seethes with resentment at the superior social status of his domineering wife, Julia. Bickleigh soothes his inferiority complex by seducing as many of the local women as he possibly can — but with the collapse of his latest fling and a fresh dose of sneering contempt from Julia, the doctor resolves to silence his wife forever and begins plotting the perfect murder. With *Malice Aforethought*, Francis Iles produced not just a darkly comic narrative of psychological suspense but also a landmark in crime fiction: for the first time, the murderer's identity was revealed at the start of the tale. Hailed as a tour de force by the British press of its day, the book retains its shock value and stands at #16 in the Crime Writers' Association ranking of the Top 100 Crime Novels of All Time.

When Alice Ascher is murdered in Andover, Hercule Poirot is already onto the clues. Alphabetically speaking, it's one down, 25 to go. This classic mystery is now repackaged in a digest-sized edition for young adults. Reissue.
