The Accidental Billionaires meets the music streaming business in Press Play, a behind-the-scenes exposé of how Swedish college drop-out Daniel Ek and his financial partner Martin Lorentzon took on the giants of Silicon Valley and the music industry, betting everything on the power of an idea to build the world's largest online source of song On a San Francisco summer's eve in 2011, after more than a year of delays, Daniel Ek--the whiz kid CEO of Spotify--celebrated the hard-earned US launch of his company. Only fifteen minutes away lay the modest brick house belonging to Steve Jobs, who had worked hard to stop this moment from ever happening. The tech war between the Apple iPhone and Android had raged, and Jobs saw downloaded music, kept within his software, as the key weapon in his holy war against Google. But Spotify had redrawn the battle lines. With humble origins as a Swedish start-up, Ek's platform had catapulted to the top of the music streaming world, using the threat of piracy and illegal downloading to get the notoriously hard-lined music labels to sign with him. But if Ek thought that the fight was won that summer's night, he would soon learn otherwise. Investigative tech journalists Sven Carlsson and Jonas Leijonhufvud deliver an action-packed, revelatory true tale--based on hundreds of interviews and previously untapped sources--about the creation of company that has revolutionized how the world consumes sound.

This book chronicles the divergent growth trends in car production in Belgium and Spain. It delves into how European integration, high wages, and the demise of GM and Ford led to plant closings in Belgium. Next, it investigates how lower wages and the expansion strategies of Western European automakers stimulated expansion in the Spanish auto industry. Finally, it offers three alternate scenarios regarding how further EU expansion and Brexit may potentially reshape the geographic footprint of European car production over the next ten years. In sum, this book utilizes history to help expand the knowledge of scholars and policymakers regarding how European integration and Brexit may impact future auto industry investment for all EU nations.

La Rivista Tecnica dell'Automobile, è il manuale monografico di manutenzione e riparazione meccanica. Può essere usato da autoriparatori o appassionati esperti per operazioni di stacco, riattacco e sostituzione componenti e ricambi dei principali sistemi dell'automobile quali motore, cambio, freni, sospensioni, climatizzazione e molto altro . Sono inoltre indicati tutti i pin-out delle principali centraline e descrive dettagliatamente le scatole portafusibili e relè delle vetture

In this new view of the Citroen story, automotive/aviation writer and design specialist Lance Cole investigates not just the details of the cars of Citroen, but the aeronautical and cultural origins that lay behind Citroen's form and function. The book digs deep into the ethos of Automobiles Citroen to create a narrative on one of the greatest car manufacturers in history. Using interviews, translations, archive documents and specially-commissioned photographs, the Citroen journey is cast in a fresh perspective. It explains in detail the influences upon Citroen design: Voisin, Lefebvre, Bertoni, Boulanger, Mages, Opron and recent Citroen designers such as Coco, Blakeslee and Soubirou. As well as all the men of the great period of 1920s-1970s expansion, it also cites less well-known names of Citroen's French engineering, design, and influence such as Cayla, Gerin, Giret, Harmand, Dargent and others, to give a full picture of Citroen heritage. The book provides in-depth analysis of all major Citroen models with an engineering and design focus and profiles key individuals and cars up to the present day and Citroen's 'DS'-branded resurgence. It features many newly commissioned photographs, rare archive drawings and interviews with Citroen owners. Researched amongst leading Citroen experts and restorers, Lance Cole provides a fresh perspective on the Citroen car manufacturer, its design language and the legacy of its extraordinary engineering which will be of great interest to all Citroen and motoring enthusiasts. Superbly illustrated with 329 colour photographs, many newly commissioned along with rare archive drawings.

In this collection of essays, Watts displays the playfulness of thought and simplicity of language that has made him one of the most popular lecturers and authors on the spiritual traditions of the East. Watts draws on a variety of religious traditions and explores the limits of language in the face of spiritual truth.
