Step-by-step instructions to handle all phases of troubleshooting & repairing all Briggs & Stratton engines.

The greatest small engines in the world are manufactured by Briggs & Stratton. From the informal partnership Stephen F. Briggs and Harold M. Stratton formed in 1908, Briggs & Stratton has evolved into an industry leader whose name is synonymous with the lawn mower engines it pioneered. The Legend of Briggs & Stratton, 208 pages, is filled with 125 color and 145 black & white images chronicling Briggs & Stratton's fascinating history.

With this book, you can handle all of the maintenance needs of your four-stroke small engine, whatever the brand, and take on virtually any repair project. It guides you through each procedure in clear, concise steps, with more than 325 color photographs and illustrations. Small Engine Care & Repair provides more than just detailed instructions and glossy photos. It teaches you the principles of small engine operation, so you can broaden your knowledge, whether you're performing maintenance or repairs or just want to understand your equipment better. This book is a resource for beginners and seasoned home mechanics alike, with a wealth of information on specialty tools, safety and other issues affecting your small engine. This new, expanded edition has been revised to include an important section on seasonal maintenance, and updated to include the latest engines, maintenance products, and tools.

A compendium of advice on the selection, care, maintenance, and servicing of reel, rotary, and rider type lawn mowers

Originally published in 1974. The thirty-six essays of this book were written and assembled in hour of an internationally recognised scholar of medieval literature. Written by a diverse range of contributors, the chapters cover not only various studies of aspects of Chaucer's poetry, but also some other medieval authors and investigations about the period, particularly referencing carols and hymns.

The world's largest manufacturer of the two-stroke engine may seem like an unusual jumping-off point for poetry. But Peter Culley's second book about his hometown Nanaimo stems from his realization that there is not an hour of his waking existence when he cannot somewhere hear a leaf blower, a lawn mower or another piece of Briggs & Stratton-powered machinery. This book was written in a little over a year — a year which saw droughts in Tofino, floods on the Gulf Coast & Canadian boots on the ground in the never-ending "war on terror". Meanwhile, Hammertown — Culley's half-imagined version of the place where he lives — is being ripped apart by corporate boondoggles, accelerating development and the triumph of the service economy. In Culley's bitterly lyrical poems elements of this disappearing world appear as bad jokes, snatches of song and passages of reminiscence. Old records and half-remembered films are arrayed against impending collapse. Like small and noisy engines themselves, Culley's poems address the impossible contradictions of our unnamed era.
