Have we lost our past, and, in turn, ourselves? Who is slamming shut our history books -- and why? In an indictment that points damning fingers at our education system, the media and our government's preoccupation with multiculturalism to the exclusion of English Canadian culture, historian J.L. Granatstein offers astonishing evidence of our lack of historical knowledge. He shows not only how "dumbing down" in our education system is contributing to the death of Canadian history, but how a multi-disciplinary social studies approach puts more nails in the coffin. He explains how some teachers think studying the Second World War glorifies violence and may worsen French-English conflicts if conscription is mentioned, And he tells how the pride Canadians should feel over their past has been brushed aside by efforts to

create a history that suits the misguided ideas of successive ministers of Canadian heritage and multiculturalism. Finally, he shows that there is hope, and there are steps we must take if we are to renew our past -- and ensure our future. With his intelligent and outspoken "blow the dust off the history books" approach to his subject, J.L. Granatstein has produced a brilliantly argued book that addresses a subject too important to ignore. Published to coincide with the anniversary of the battle of Vimy Ridge (April 9, 1917), and appearing at a time when our education system is coming under ever sharper attack *Who Killed Canadian History?* is a timely and provocative release. A recent test on Canada given to 100 first-year students at an Ontario university revealed the following statistics: -- 61% did not know that Sir John A. Macdonald was our first English-speaking prime minister -- 55% did not know that Canada was founded in 1867 -- 95% did not know that 1837 was the date of the Rebellions of Upper and Lower Canada -- 92% did not know the year of the first Quebec referendum

This is the fascinating story of the French regime in Canada. Few periods in the history of North America can equal it for romance and color, drama and suspense, great human courage and far-seeing aspiration. Costain, who writes history in the terms of the people who lived it, wrote of this book: "Almost from the first I found myself caught in the spell of these courageous, colorful, cruel days. But whenever I found myself guilty of overstressing the romantic side of the picture and forgetful of the more prosaic life beneath, I tried to balance the scales more properly. [This] is . . . a conscientious effort at a balanced picture of a period which was brave, bizarre, fanatical, lyrical, lusty, and, in fact, rather completely unbalanced."

To the young child holding this book in your hand. Do you believe someone just like you could become a history maker? I believe you can. Read this story and discover how Devon, a little boy from Jamaica, became a Canadian history maker. You will see that anything is possible and that dreams can come true. For Parents, Teachers and Everyone who cares for a Child There ' s nothing like the inspiration to be drawn from a story of someone overcoming challenges and achieving the impossible, especially when that story involves a child. And no example sings so loudly as this one, about a little black boy growing up in rural Jamaica without electricity or indoor plumbing who would go on to become Canada ' s first-ever black Chief of Police. In Devon Clunis ' s inspiring tale, we find a shining illustration of how hope can lift a person above their conditions to the very height of their dreams. In the simple, welcoming language that ushers along this moving narrative, we learn about the simplicity of the life that marked Devon ' s early years. When he was a little boy, Devon had no lights or power or running water in his house. Today, that same boy — now a man — holds an impressively prominent position in Canada ' s law enforcement community and history. Through Devon ' s story, readers will learn that hard work, help from others, and a powerful belief in yourself, are all essential elements in achieving truly spectacular things. The potential for greatness resides in all of us, just as they did little Devon. If we can each capitalize on this immense gift to the best of our abilities, think how far

and Lafontaine, to MacDonald, Laurier, and King, Canada's role in peace and war, to Quebec's quest for autonomy, Black takes on sweeping themes and vividly recounts the story of Canada's development from colony to dominion to country. Black persuasively reveals that while many would argue that Canada was perhaps never predestined for greatness, the opposite is in fact true: the emergence of a magnificent country, against all odds, was a remarkable achievement. Brilliantly conceived, this major new reexamination of our country's history is a riveting tour de force by one of the best writers writing today.
