Canadian author is a sailor and marine mechanic cruising aboard his  
36-foot steel-hulled Chevrier sloop. Illustrations: 300+ drawings  
Pages: 222 pages Published: 2017 Format: softcover Category:  
Inboards, Gas & Diesel

Earthen architecture is widespread all over the world and  
demonstrates a significant richness of varieties both in application  
and in materials used. This book discusses and debates the lessons  
that can be learned from earthen architecture to create sustainable  
architecture today, both for the conservation of traditional existing  
buildings and the design and construction of new ones. It deals with  
the study of earthen architecture around the world in order to  
preserve our earthen built heritage and proposes these building  
techniques as a sustainable option for building a new architecture of  
the future. Earthen Architecture: Past, Present and Future will be a  
valuable source of information for academics and professionals in the  
fields of Civil Engineering, Construction and Building Engineering  
and Architecture.

Prepare your students to meet the demands of today's business world  
with the proven, practical dual approach in Burton/Shelton's BUSINESS  
MATH USING EXCEL, 2nd Edition. This book equips readers to master the  
math concepts most useful in contemporary business by first teaching  
students the traditional methods of calculating. The authors then  
emphasize a second approach that teaches the same math concepts using

the functions of Microsoft Excel. This edition of BUSINESS MATH USING EXCEL prepares students to use the latest version of Excel 2010. Your future business professionals learn to create formulas and master the functions of Excel while developing high level math skills and refining other skills that will prepare them to succeed in the workplace. This edition's new, full-color design presents concepts in manageable sections to help build confidence for students at all levels of math proficiency. New profiles and new personal finance features emphasize the practicality of the book's content as they demonstrate how professionals use math daily and highlight common consumer issues. A new CourseMaster outcomes-based learning solution with homework tools and automatic grading saves you time while helping students focus on the concepts most important for business math success. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

Opportunity presents itself in, of all places--Las Vegas. Randy and his girls are flown to Sin City on a corporate jet and after being wined and dined and...ah...other things, are offered the opportunity to host that Summer's Adult Pool Parties at the Galaxy & Eden Hotels

EXCERPT We arrived to the Scottsdale Airport terminal at one-forty, with twenty minutes to spare. The Prince's right hand man, Fahd Barakah, met us and escorted us to Las Vegas. Fahd apologized for the prince not being there. It seems to pass the time he got involved in a game of Chemin de fer and lost 6.7 million dollars, so he sent Fahd instead, because he was trying to recoup his loses. We flew to Vegas in Prince Salam's tricked-out Gulfstream 650, which according to Fahd cost 89 million dollars. I was shocked. I had no idea private planes cost that much. The flight was uneventful and we arrived at McCarran Executive Air Terminal at 1:45 pm--earlier than we left due to the time difference. From there a stretch limousine zipped us the two miles to the Galaxy Hotel where Romano greeted us effusively, especially me. After embracing me and kissing my cheek, he said, "Ah, April. I'm so glad you came. I have been so looking forward to seeing you again." He winked. "I remember our time together at the Phoenician most fondly." I remembered too. I remembered how handsome he was/is and how much he turned me on. "It's good to see you again, too. I'm looking forward to working in Vegas again." Romano's eyebrows rose. "Again? I wasn't aware you had worked here before." A flush surged through me. "Oh, it was for only two weeks when I was in college." "I see. Well I'm sorry I missed you then." He chuckled. "You might never have gone back to Phoenix." His eyes wandered to Lita, who stood between me and Randy. "And who is this lovely creature?" "Oh! This is Lita. Lita this is...I'm sorry but I don't know your first name." "It's Julio. I seldom use it, everyone calls me Romano, but you can use either name." "Lita, this is Julio Romano and Julio, this is Lita Brooks." Lita did a half curtsy. "Pleased to meet you, Mr. Romano." "Please, please. Julio or Romano. We are going to be famiglia around here." He took Lita's hand, raised it chest high

then leaned down and kissed the top. "Lovely name for a lovely creature. I hope we can get to know each other real good. As Lita blushed, Romano lowered her hand and held out his hand to Randy. "And you are?" "Randy Evers." Randy took the offered hand and shook it. "Romano...or Julio, if you prefer. You are the impresario, no?" Randy laughed. "I've been called many things but never that." Romano laughed too. "Well my friend, you have a nose for beautiful women. Counting Lita, I have beheld three. How many more gorgeous courtesans do you have for us?" "Only one of the quality you want." Romano's eyes narrowed. "Oh, you must keep your talented nose, ears and eyes out for more. We can always put beautiful women to work." Addressing everyone Romano then asked, "Have you eaten?" Randy Lita and I shook our heads. "Only an early breakfast." Romano stuck his arms out and lolled his head back. "Then you must be starved. "Let's go in the hotel, get you a room and we'll meet for dinner after you freshen up. Perhaps the Prince will be done with his foolishness by then." While Randy went with Romano to check on the Prince, we took an elevator to the thirty-second floor where our suite—suite 3206 was located. Romano insisted we take a suite that was saved for high rolling VIPs. Lita and I decided to share one bedroom though we'd probably all end up in the same extra-king sized bed. If Randy wanted to be by himself or if he picked up a show girl, He could have the bedroom that adjoined the suite, but also had it's own entrance. The three of us were supposed to meet Romano and Prince Salam at five-thirty in the Alpha Centauri gourmet room for what Romano described as a 'gastronomic orgy'. Randy suggested we pull out all stops and look our very best for the occasion. Lita and I agreed. This was the big leagues and the stakes were high. If we pulled it off our lives would change like we never imagined.

Issues in Allergy and Asthma Research and Treatment: 2011 Edition is a ScholarlyEditions™ eBook that delivers timely, authoritative, and comprehensive information about Allergy and Asthma Research and Treatment. The editors have built Issues in Allergy and Asthma Research and Treatment: 2011 Edition on the vast information databases of ScholarlyNews.™ You can expect the information about Allergy and Asthma Research and Treatment in this eBook to be deeper than what you can access anywhere else, as well as consistently reliable, authoritative, informed, and relevant. The content of Issues in Allergy and Asthma Research and Treatment: 2011 Edition has been produced by the world's leading scientists, engineers, analysts, research institutions, and companies. All of the content is from peer-reviewed sources, and all of it is written, assembled, and edited by the editors at ScholarlyEditions™ and available exclusively from us. You now have a source you can cite with authority, confidence, and credibility. More information is available at <http://www.ScholarlyEditions.com/>.

Energy Efficiency: Concepts and Calculations is the first book of its kind to provide an applied, systems oriented description of energy

intensity and efficiency in modern economies across the entire energy chain. With an emphasis on analysis, specifically energy flow analysis, lifecycle energy accounting, economic analysis, technology evaluation, and policies/strategies for adopting high energy efficiency standards, the book provides a comprehensive understanding of the concepts, tools and methodologies for studying and modeling macro-level energy flows through, and within, key economic sectors (electric power, industrial, commercial, residential and transportation). Providing a technical discussion of the application of common methodologies (e.g. cost-benefit analysis and lifecycle assessment), each chapter contains figures, charts and examples from each sector, including the policies that have been put in place to promote and incentivize the adoption of energy efficient technologies. Contains models and tools to analyze each stage at the macro-level by tracking energy consumption and how the resulting data might change energy use Includes accessible references and a glossary of common terms at the end of each chapter Provides diagnostic figures, tables and schematics within the context of local, regional and national energy consumption and utilization

'For the educated reader still groping for answers, Dr. Walsh's book offers an extraordinary opportunity to put the questions in perspective. Some may think these issues are settled, but one merely has to live to know it's not case closed. Buy this book, read it, and study it for profound background and analysis from a preeminently qualified author.'--Constance U. Battle, M.D., immediate past president, American Medical Women's Association

This is a new release of the original 1930 edition.

When Ash loses her boyfriend, she is consumed by grief, loneliness, and an overwhelming sense of guilt for her role in not only his death, but the deaths of everyone she has ever loved. Refusing to let anyone in for fear of losing them too, she becomes withdrawn, spending her days reliving the nightmares from her past. Until she meets Luke. Initially scared by his intensity and interest in her, Ash tries to push him away. But as Luke slowly starts to chip away at the walls she's built, Ash finds herself doing the one thing she swore she'd never do again - falling in love. When the familiar feelings Ash had hoped were long buried with her past begin to resurface, she is forced to ask herself if falling in love again is really worth the risk.
