The IPS System Status Monitor includes a function which can report the total load on each phase of your power service. For this function to work, you must ensure that the wires feeding all dimmers and dimmer outlets are wired in the same order. The following scheme is suggested: Connector Wire Conductor IPS

Operating Instructions Installation Guide

Dimmer is a small and free application for Windows designed to help control the brightness of your computer screen, monitor or display. This becomes very useful when you are in near/total darkness and the minimum brightness from your display or screen is still too much. It offers a fast and easy way to adjust the brightness of your displays, it can dim all your screens and monitors; LCD, TFT and LED backlit types (even CRTs).
