Never has the industry of entertainment, such as TV, the Internet, sports and music, been so developed, but we have never been sadder and predisposed to so many emotional disorders. Millions of children and adults have been developing the accelerated thought syndrome (ATS), discovered by Dr. Augusto Cury, psychiatrist and scientist of psychology. Agitated mind, suffering by anticipation, excessive fatigue and forgetfulness are some of this syndrome's symptoms. In this book you will find tools to train your emotion to overcome the ATS and prevent depression, anxiety, panic syndrome and improve your quality of life and your pleasure in living. You will also discover the Master of masters' emotional training. Perhaps "Training your emotion to be happy" will be psychology's first attempt at investigating how Jesus Christ navigated the waters of emotion and why he was happy and tranquil in a stressful and depressing environment. Over 300.000 people have read this book. Psychologists, teachers, businessmen, parents and teenagers have it as bedside reading. The only place where aging is forbidden is in

the territory of emotions. Emotions are capable of turning wealth into misery and misery into wealth. Train your emotion to be happy, intelligent and young.! Something new will happen!

A philosopher traverses the country delivering messages to the despondent, encouraging them to recognize society's commonplace heroes, including parents, teachers, and cancer patients.

Part of being human is experiencing setbacks, both minor and major. What can set you apart is how you deal with them. In *You Are Irreplaceable*, author Augusto Cury encourages you to get back to a time when you were driven by the dream of being alive, not controlled by your troubles and opponents. *You Are Irreplaceable* takes you on a winding spiritual journey starting when your life was simple and uncomplicated. sampling of Augusto's inspirational reflections: "Criticize every negative thought—complacency, compliance, and passivity must all be questioned and the causes of inner conflict must be considered. Demand happiness, confidence, and well-being. Broaden your emotional range and embrace new experiences. Be the author, not the victim, of your history!" Augusto Cury can help you cope with failure, grief, and fear. Let him inspire success, well-being, and happiness.

Nã o procure a felicidade no mundo l á fora.Ela est á dentro de si. Olhe à sua volta: o mundo parece que foi feito para lhe dar prazer. Há toda uma indústria do entretenimento que trabalha para si. Oferece-lhe concertos, filmes, excelentes séries de TV, livros, jogos de computador, bares... e nunca foi tão fácil apanhar um avião e rumar para destinos exóticos. E no entanto, por mais escapes que a vida atual tenha, nunca houve tanta gente deprimida, infeliz, a tomar medicamentos para curar uma tristeza que nenhum remédio pode curar.Porque a felicidade não é um dom, mas sim uma conquista. Há pessoas que têm tudo e se sentem miseráveis; e há quem, com muito pouco, faça a festa. E a diferença, como nos revela o psicólogo Augusto Cury, está nas suas emoções.Ser feliz requer treino, e é esse o segredo revelado neste livro. Cury desvenda, um após outro, os passos que devemos dar para ficarmos em paz, superarmos a ansiedade — e descobriremos a coragem que existe na dor, a força que se esconde na fragilidade, as lições que os fracassos nos dão.Treinar as Emoções Para Ser Feliz é uma obra única, memorável, que o prepara para a vida pessoal e profissional. Vai ensiná-lo a livrar-se das emoções negativas e abraçar as positivas — e a guardar apenas essas nos seus “arquivos”.Sempre com a ajuda do maior Mestre das Emoções: Jesus.Dr. Augusto Cury é médico psiquiatra, psicoterapeuta, cientista e escritor, sendo um dos autores mais publicados no mundo inteiro. As suas obras estão presentes em cerca de 60 países e foi considerado o mais lido na última década no Brasil, pelo jornal Folha de S. Paulo e pela revista Isto É. Os mais de 30 livros que escreveu já ultrapassaram os 16 milhões de exemplares vendidos, só no Brasil. Ao longo de mais de 20 mil sessões de trabalho de psicoterapia, desenvolveu uma teoria inovadora sobre o funcionamento da mente, os fenômenos conscientes e inconscientes e a formação dos pensamentos e de pensadores, que é objeto de um doutoramento e de um mestrado nos EUA e em Espanha e de pós-graduações no Brasil. Desenvolveu a inédita metodologia da Escola da Inteligência, para o desenvolvimento das funções mais complexas da inteligência, da promoção da saúde emocional.

Wherever he goes, the dreamseller enchants, stirs up trouble and inspires his listeners to search for the most important thing: the heart of the human soul. Every person he meets is someone who has abandoned their dreams and is struggling through life: a professor who has stopped pursuing his passions, an alcoholic who has no family, the elderly who have lost their zest for life. Through his questioning and wisdom, the dreamseller helps them to look into their silent hearts and get to the root of their unhappiness. *The Dreamseller: The Calling* is moving, entertaining and ultimately inspiring. This book will make you laugh and cry, but above all, it will make you reflect on the purpose of your life, value others and become empowered to believe in your dreams.

Todo ser humano deve buscar um melhor sentido para a sua vida. Só você, ninguém mais, é capaz de fazê-lo em seu lugar. Busque com amor, que você vai encontrá-lo e, então, viverá mais feliz.

The unique feature of this book is its down-to-earth practicality Here you are presented with simple, usable techniques and formulas, which you can easily apply in your workaday world. I have taught these simple processes to men and women all over the world, and recently over a thousand men and women of all religious affiliations attended a special class in Los Angeles where I presented the highlights of what is offered in the pages of this book. Many came from distances of two hundred miles for each class lesson. The special features of this book will appeal to you because they show you why oftentimes you get the opposite of what you prayed for and reveal to you the reasons why. People have asked me in all parts of the world and thousands of times, "Why is it I have prayed and prayed and got no answer?" In this book you will find the reasons for this common complaint. The many ways of impressing the subconscious mind and getting the right answers make this an extraordinarily valuable book and an ever present help in time of trouble.

Sexting. Cyberbullying. Narcissism. Social media has become the dominant force in young people's lives, and each day seems to bring another shocking tale of private pictures getting into the wrong hands, or a lament that young people feel compelled to share their each and every thought with the entire world. Have smartphones and social media created a generation of self-obsessed egomaniacs? Absolutely not, Donna Freitas argues in this provocative book. And, she says, these alarmist fears are drawing attention away from the real issues that young adults are facing. Drawing on a large-scale survey and interviews with students on thirteen college campuses, Freitas finds that what young people are overwhelmingly concerned with--what they really want to talk about--is happiness. They face enormous pressure to look perfect online--not just happy, but blissful, ecstatic, and fabulously successful. Unable to achieve this impossible standard, they are anxious about letting the less-than-perfect parts of themselves become public. Far from wanting to share everything, they are brutally selective when it comes to curating their personal profiles, and worry obsessively that they might unwittingly post something that could come back to haunt them later in life. Through candid conversations with young people from diverse backgrounds, Freitas reveals how even the most well-adjusted individuals can be stricken by self-doubt when they compare their experiences with the vast collective utopia that they see online. And sometimes, as on anonymous platforms like Yik Yak, what they see instead is a depressing cesspool of racism and misogyny. Yet young people are also extremely attached to their smartphones and apps, which sometimes bring them great pleasure. It is very much a love-hate relationship. While much of the public's attention has been focused on headline-grabbing stories, the everyday struggles and joys of young people have remained under the radar. Freitas brings their feelings to the fore, in the words of young people themselves. *The Happiness Effect* is an eye-opening window into their first-hand experiences of social media and its impact on them.

Each and every one of us has come to this earthly plane with a mission, a purpose to be fulfilled. Despite the fact that, on the surface, we are not equal and have different qualities, we are united in one unique purpose that, at the end of the day, is the expansion of consciousness. Consciousness expands through love. That is why I often say that our work as human beings is to awaken love in everyone, everywhere. I now want to invite you to embark with me on a journey towards the expansion of consciousness. It is an adventure full of uncertainty and challenges that will take us from the seed to the fruit, from Earth to heaven, from forgetfulness to remembrance, from being asleep to the state of an awake consciousness. It is a journey that reveals the infinite unfoldings of love--this power that inhabits us, moves us and liberates us. It is part of our mission to reach the answer to these questions. We are constantly being encouraged to ask and find answers to questions like these and invited to perceive and understand the Mystery. Nature has sent very clear messages that the time has arrived for us to awaken from the dream of

forgetfulness and wake up to reality. With so much information available on the unsustainable nature of our lifestyle, it is no longer acceptable for us to continue to act without a minimum of environmental awareness. It is now inconceivable that we are still so skeptical and closed that we cannot perceive the greater reality that transcends matter, since it is this shut-down state that prevents us from having access to the purpose of life. I, as a spiritual master but, above all, as a conscientious human being, have the obligation to tell the truth, no matter how painful it might be: we human beings are heading for a great failure. We have been unable to find this so desired happiness until this point in our passage here on Earth. This is because we are looking in the wrong place--outside ourselves. Happiness does not lie in the future, in material goods or in the opinion other people have of us. It is here and now, inside us. We need to have the courage and humility to give up our pride and take responsibility for our mistakes. We need to cure ourselves of egoism and only self-knowledge can bring about this cure. It was precisely with the intention of offering instruments that allow and facilitate the process of self-knowledge but, above all, with the aim of giving movement to an energy that can drive a real transformation that I decided to write this book. Love is the seed, the sap and the flavor of the fruit. It is the beauty and the fragrance of the flower. The beginning, the middle and the end. Awakening love is the reason why we are here. May the message contained in this book serve as an inspiration and guide for your journey. About the Author: Sri Prem Baba was born in São Paulo, Brazil and studied psychology and yoga. He became a disciple of the master Sri Sachcha Baba Maharaj Ji, of the Indian Sachcha lineage. He splits his time between Brazil and India, where he gives lectures and offers retreats. He is also the author of Transformando o sofrimento em alegria (From Suffering to Joy) and Amar e ser livre: as bases de uma nova sociedade (Love and Be Free: the basis for a new society). He has also written messages of wisdom which he calls the "Flower of the Day," distributed on a daily basis to thousands of people and translated into various languages.

The instant Wall Street Journal, USA Today, and international bestseller “ While the history books are filled with tales of obsessive visionary geniuses who remade the world in their image with sheer, almost irrational force, I ’ ve found that history is also made by individuals who fought their egos at every turn, who eschewed the spotlight, and who put their higher goals above their desire for recognition. ” —from the prologue Many of us insist the main impediment to a full, successful life is the outside world. In fact, the most common enemy lies within: our ego. Early in our careers, it impedes learning and the cultivation of talent. With success, it can blind us to our faults and sow future problems. In failure, it magnifies each blow and makes recovery more difficult. At every stage, ego holds us back. Ego Is the Enemy draws on a vast array of stories and examples, from literature to philosophy to history. We meet fascinating figures such as George Marshall, Jackie Robinson, Katharine Graham, Bill Belichick, and Eleanor Roosevelt, who all reached the highest levels of power and success by conquering their own egos. Their strategies and tactics can be ours as well. In an era that glorifies social media, reality TV, and other forms of shameless self-promotion, the battle against ego must be fought on many fronts. Armed with the lessons in this book, as Holiday writes, “ you will be less invested in the story you tell about your own specialness, and as a result, you will be liberated to accomplish the world-changing work you ’ ve set out to achieve. ”
