based on sound moral principles—cannot enjoy the confidence of the customer for long. It is in this context that a book on Professional Ethics is very significant. This systematically organized text opens with an introduction to Human Values and discusses, with great skill and expertise, the various

approaches to the study of ethical behaviour, ethical theories, value-based ethics and the engineers' responsibility for safety and risk, collegiality and loyalty. Besides, the responsibilities of engineers in organizational setting, and global issues such as environmental ethics, computer ethics, and

mechanical engineering.

The text introduces the concepts and techniques relevant to packaging of industrial, pharmaceutical and food products. It covers the package design concepts with emphasis on graphics and colours, as innovation in packaging is taking place at a rapid pace due to the competition among

necessary. Chapter 7 on “Plastics and Speciality Packaging” has been completely overhauled and split to introduce a new chapter on “Package Finishing and Security (Chapter 8). Thus, in contrast to eight chapters of the previous edition, the book now comprises total nine chapters. Besides undergraduate

the marketer's role in relationship to an organization. It highlights the knowledge, the skills and the competencies necessary for marketers to succeed in today's competitive world, and bridges the gap between the theory of marketing and the realities of the high-tech market. This NEW edition includes

of Marketing/Marketing
Management. This book
can also be used to
advantage by
undergraduate students
of Business
Administration (BBA)
for courses in
marketing, and by
students of engineering
where an elective course
on Marketing
Management is
prescribed.
