CLICK HERE to download the first chapter from Wilderness GPS \* Simple, focused, and accessible, Wilderness GPS is for anyone using GPS in an outdoor setting \* Trust us: first-timers need help to use their new backcountry GPS devices \* From the authors of the bestselling Wilderness Navigation (65,000 copies sold) Thousands have learned compass and map skills with the help of father-and-son team Bob and Mike Burns and their straightforward, simply explained book, Wilderness Navigation. Now they've written a book for everyone who has bought a backcountry GPS device and found it inexplicably complicated to use (which includes most of us). Wilderness GPS is an easy-to-use guide to get you navigating the outdoors with your handheld GPS device. Wondering how to choose from the variety of gear and computer programs, or how to use a GPS with your map and compass effectively? Wilderness GPS details this and more including: \* How to select your GPS gear \* Getting started and practice routines \* Different coordinate systems: latitude and longitude vs. Universal transverse Mercator (UTM) \* Routefinding in wilderness settings, including common scenarios \* GPS vs. map and compass routefinding \* Using GPS on water \* Using your GPS with a home computer or mobile "smart" device Bob Burns and Mike Burns are the authors of Wilderness Navigation, a nationally bestselling primer that serves as the official textbook for navigation courses taught by The Mountaineers and other outdoor education centers. Together, they have decades of professional experience in teaching map and compass, GPS, and navigation in the outdoors and have hiked, scrambled, climbed, and snowshoed all over the West Coast and beyond. They both live in Seattle.

All the techniques you need to become an expert navigator. The Ultimate Navigation Manual is a unique guide to finding your way on land - from the basic principles right up to the advanced technology of GPS. Designed to allow even the absolute beginner to find their way anywhere in the world, it also develops a unique confidence in navigation - with or without technical aids. With a preface by Sir

Ranulph Fiennes, contents will also include: Environmental clues - Using the natural environment to navigate Maps - An introduction to the different types of maps The Compass and North - How compasses work, how to use them and how to choose the right one Map and Compass Navigation - twenty-five easy-to-learn skills are described Relocation Procedures - What to do when lost, dealing with well-known relocation procedures and some ground-breaking new ones Stellar Navigation - Simple methods that are easy to learn GNSS (GPS) Navigation - Why Global Satellite Navigation Systems are the most significant advance in navigation since the invention of the magnetic compass; details all of the systems now available, including the American GPS Specialist environments and equipment - Which techniques are best, where and how to use them in environments such as the Arctic, coastal areas, desert regions, jungles or forests, mountains and urban areas Written by one of the world's leading search and rescue consultants and highly illustrated with specially commissioned photographs designed to emphasise navigation problems - this is the ultimate guide to not losing your way.

Vols. for 1871-76, 1913-14 include an extra number, The Christmas bookseller, separately paged and not included in the consecutive numbering of the regular series.
