Connects current political science to the core topics in American politics.

Our American Government textbook adheres to the scope and sequence of introductory American government courses nationwide. We have endeavored to make the workings of American Government interesting and accessible to students while maintaining the conceptual coverage and rigor inherent in the subject at the college level. With this objective in mind, the content of this textbook has been developed and arranged to provide a logical progression from the fundamental principles of institutional design at the founding, to avenues of political participation, to thorough coverage of the political structures that constitute American government. The book builds upon what students have already learned and emphasizes connections between topics as well as between theory and applications. The goal of each section is to enable students not just to recognize concepts, but to work with them in ways that will be useful in later courses, future careers, and as engaged citizens. The organization and pedagogical features were developed and vetted with feedback from American government instructors dedicated to the project.

of millions of Americans have opinions and beliefs wildly at odds with fact, rendering them unable to think sensibly about politics. In *How America Lost Its Mind*, Thomas E. Patterson explains the rise of a world of “alternative facts” and the slow-motion cultural and political calamity unfolding around us. We don’t have to search far for the forces that are misleading us and tearing us apart: politicians for whom division is a strategy; talk show hosts who have made an industry of outrage; news outlets that wield conflict as a marketing tool; and partisan organizations and foreign agents who spew disinformation to advance a cause, make a buck, or simply amuse themselves. The consequences are severe. *How America Lost Its Mind* maps a political landscape convulsed with distrust, gridlock, brinksmanship, petty feuding, and deceptive messaging. As dire as this picture is, and as unlikely as immediate relief might be, Patterson sees a way forward and underscores its urgency. A call to action, his book encourages us to wrest institutional power from ideologues and disruptors and entrust it to sensible citizens and leaders, to restore our commitment to mutual tolerance and restraint, to cleanse the Internet of fake news and disinformation, and to demand a steady supply of trustworthy and relevant information from our news sources. As philosopher Hannah Arendt wrote decades ago, the rise of demagogues is abetted by “people for whom the distinction between fact and fiction, true and false, no longer exists.” In *How America Lost Its Mind*, Thomas E. Patterson makes a passionate case for fully and fiercely engaging on the side of truth and mutual respect in our present arms race between fact and fake, unity and division, civility and incivility.

Since September 11, 2001, the United States has investigated and prosecuted public employees, journalists, and the press for the dissemination of classified information relating to the national security. What is the cause of the recent tension between the government and the press? Perhaps the media are pressing more aggressively to pierce the government's shield of secrecy. Perhaps the government is pressing more aggressively to expand its shield of secrecy. Perhaps both factors are at work. *Top Secret* explores not why this is happening, but whether the measures taken and suggested by the executive branch to prevent and punish the public disclosure of classified information are consistent with the First Amendment. This book, the first in the *Free Expression in America* series, addresses four critical issues: a public employee's right to disclose classified information to a journalist, the government's right to punish the press for publishing classified information, the government's right to punish a journalist for soliciting such information, and a journalist's right to keep his sources anonymous.
