~~Happy Valley was the name given to the Wanjohi Valley in the Kenya Highlands, where a small community of affluent, hedonistic white expatriates settled between the wars. While Kenya’s early colonial days have been immortalised by farming pioneers like Lord Delamere and Karen Blixen, and the pioneering aviator Beryl Markham, Happy Valley became infamous under the influence of troubled socialite, Lady Idina Sackville, whose life was told in Frances Osborne’s bestselling The Bolter. The era culminated with the notorious murder of the Earl of Erroll in 1941, the investigation of which laid bare the Happy Valley set’s decadence and irresponsibility, chronicled in another bestseller, James Fox’s White Mischief. But what is left now? In a remarkable and indefatigable archaeological quest Juliet Barnes, who has lived in Kenya all her life and whose grandparents knew some of the Happy Valley characters, has set out to explore Happy Valley to find the former homes and haunts of this extraordinary and transient set of people. With the help of a remarkable African guide and further assisted by the memories of elderly former settlers, she finds the remains of grand residences tucked away beneath the mountains and speaks to local elders who share first-hand memories of these bygone times. Nowadays these old homes, she discovers, have become tumble-down dwellings for many African families, school buildings, or their ruins have almost disappeared without trace - a revelation of the state of modern Africa that makes the gilded era of the Happy Valley set even more fantastic. A book to set alongside such singular evocations of Africa’s strange colonial history as The Africa House, The Ghosts of Happy Valley is a mesmerising blend of travel narrative, social history and personal quest.~~

~~Patrick White’s magnificent debut novel - first published 1939, long out of print and now a Text Classic. Based on Patrick White’s own experiences in the early 1930s as a jackaroo at Bolaro, near Adaminaby in south-eastern New South Wales, Happy Valley paints a portrait of a community in a desolate landscape. It is a jagged and restless study of small-town and country life. White was twenty-seven when Happy Valley was published by George C. Harrop in London. This mesmerising first novel gives us a prolonged glimpse of literary genius in the making. It won the Australian Literature Society Gold Medal in 1941, but White did not allow the novel to be republished in English in his lifetime. Its appearance now in the Text Classics series is a major literary event. Happy Valley is the missing piece in the extraordinary jigsaw of White’s work. Patrick White was born in England in 1912 and taken to Australia, where his father owned a sheep farm, when he was six months old. He was educated in England and served in the RAF, before returning to Australia after the war. He was the first Australian to win the Nobel Prize for Literature, in 1973. He died in 1990. Peter Craven is one of Australia’s best-known literary critics. He was founding editor of Scrips, Quarterly Essay and the Best of anthologies. "[Patrick White] was a prophet, and from his sublime mountaintop, he sent down lightning bolts on our callow heads. Some of these bolts are vivid in Happy Valley, his first novel, published in 1939 and now reissued...The novel stands up well in the high company of its later brethren. It prefigures the greatness to come, and is a more adventurously wrought than many of our own age. White is a mesmerising narrator whose prose illuminates the most ordinary object and event in new and gripping ways." Thomas Keneally, Guardian 'Happy Valley will be a joy for any fan. Here we see a sensibility not so much forming as finding, and owning, itself.' Weekend Australian 'This is a remarkable first novel, already discernible as the performance of a master whose apprentice work cannot be glimpsed. We are fortunate indeed that Text has reopened the front door in the house of Patrick White's fiction.' Canberra Times 'My favourite Australian novel was by a newcomer - well, a newcomer in 1939. A sardonic, grotesque, oddly moving ensemble of piece about thwarted lives in a dismal country town, Happy Valley presages the later Patrick White, but is also refreshingly original and feels as contemporary as the latest bestseller.' Jane Sullivan, Australian Book Review 'Happy Valley is a harsh and unsparing picture of a prematurely exhausting, life-denying Australia. It's a world full of violence, adultery and financial ruin, in which nothing will ever change. White's main focus, as in his great later novels, is the thwarted spiritual yearning of his characters. But this is also a superb anatomy of Australian society.' Metro (NZ)~~

~~**#1 NEW YORK TIMES BESTSELLER • OPRAH’S BOOK CLUB PICK** The heartrending story of a midcentury American family with twelve children, six of them diagnosed with schizophrenia, that became science’s great hope in the quest to understand the disease. "Reads like a medical detective journey and sheds light on a topic so many of us face: mental illness." –Oprah Winfrey Don and Mimi Galvin seemed to be living the American dream. After World War II, Don’s work with the Air Force brought them to Colorado, where their twelve children perfectly spanned the baby boom: the oldest born in 1945, the youngest in 1965. In those years, there was an established script for a family like the Galvins--aspiration, hard work, upward mobility, domestic harmony--and they worked hard to play their parts. But behind the scenes was a different story: psychological breakdown, sudden shocking violence, hidden abuse. By the mid-1970s, six of the ten Galvin boys, one after another, were diagnosed as schizophrenic. How could all this happen to one family? What took place inside the house on Hidden Valley Road was so extraordinary that the Galvins became one of the first families to be studied by the National Institute of Mental Health. Their story offers a shadow history of the science of schizophrenia, from the era of institutionalization, lobotomy, and the schizophrenogenic mother to the search for genetic markers for the disease, always amid profound disagreements about the nature of the illness itself. And unbeknownst to the Galvins, samples of their DNA informed decades of genetic research that continues today, offering paths to treatment, prediction, and even eradication of the disease for future generations. With clarity and compassion, bestselling and award-winning author Robert Kolker uncovers one family’s unforgettable legacy of suffering, love, and hope.~~

~~A boy’s life from Ireland to Alcatraz "makes for compulsive reading" in this New York Times bestselling historical novel by the author of Sold on a Monday (Publishers Weekly). Alcatraz, 1937. A prison guard’s only daughter—one of the youngest civilians who lives on the island—has gone missing. Tending the warden’s greenhouse, convicted bank robber Tommy Capello waits anxiously. Only he knows the truth about the little girl’s whereabouts, and that both of their lives depend on what happens next. Almost two decades earlier and thousands of miles away, a young boy named Shanley Keagan ekes out a living as an aspiring vaudevillian in Dublin pubs. Talented and shrewd, Shan dreams of finding his real father in America. But when he finally crosses the Atlantic, tragedy strikes, and Shan must forge a new life in a volatile and foreign world. Skillfully weaving these two stories, acclaimed author Kristina Morris delivers a compelling novel that moves from Ireland to New York to San Francisco Bay. As her finely crafted characters discover the true nature of loyalty, sacrifice, and betrayal, they are forced to confront the lies we tell—and believe—in order to survive. "Will grab your heart on page one and won't let go until the end."—Sara Gruen, #1 New York Times bestselling author of Water for Elephants~~
