~~Harley Diagnostic Codes – ThunderMax~~

The check engine and temp lights come on after a few miles. I checked the codes and got codes P1019 and U0184. I also checked the fans come on when I test them but when needed. I changed the temp sensors in the head and radiator in the left lower fairing. The U0184 code went away but the light still comes on and I still get code P1019. Reply
