There ' s only one solution for a nasty case of writer ' s block, and that ' s murder. Specifically, that of one Mercy McCabe, a cunning SoHo art dealer who was once our Latina narrator ' s rival for the scrumptious Bebe. When she discovers that McCabe has squandered Bebe ' s affections after stealing her away, revenge is not enough: McCabe must confess her guilt, sentence herself, and beg for her own execution, Soviet-style. In the all-too-terrifyingly-familiar America of Heartland, the inconceivable has become ordinary: corruption and greed at the top have led to mass starvation in the heartland; hordes of refugees have escaped from resettlement camps and attack the cities; a puritanical Caliphate has toppled Constantinople, with America in its sights. Meanwhile, escaping her New York life in disguise, our heroine lures McCabe to her home turf: a hilltop house in the Great Plains where her parents worked as domestic servants. Her nemesis, though, is slippery, and McCabe disappears, threatening to ruin a homicidal masterplan so detailed as to be akin to love. Heartland is a hilarious, genre-defying debut that confronts taboos of race, assimilation, and sex through a high-voltage tale of love, language, and revenge.

Gerald " Jerry " Kerr was born in 1920 in Kansas, the Heartland of the United States. In his early years, there were no modern appliances, and everything was done by manual labor. He describes how movies went from black and white, silent films to sound and color. In 1929 the Stock Market crashed and he lived through the Great Depression and terrible dust storms in the Mid-west. Hitler started WWII in 1939 and Japan attacked the U.S. Navy in Pearl Harbor on Dec. 7, 1941. The author was drafted into the Army, went to OCS and became a 2nd Lieutenant. He married and was sent to New Guinea and at the end of the war, took in some of the first troops to occupy Japan. He saw his eighteen months old son for the first time when he returned home. Kerr was in the army for twenty-two years and retired in 1964. During his Army Career, he had three tours of duty in the Pentagon, a tour in Rio de Janeiro, Brazil, Bangkok, Thailand, and received an MBA from Syracuse University. His wife contracted Alzheimer ' s and passed away in the 80 ' s and he later married a Texas lady. He lived four score of the 20th Century, and experienced the fantastic advances made in transportation, communications, electronics and medicine. Computers put men on the moon and more progress was made in that one century than in all of the time before. This made it " Living in the Greatest Century " .

Hard-Pressed in the Heartland tells the heartbreaking but empowering story of a spirited local union trying to resist management's drive for concessions--while fending off a conservative national union leadership unwilling to support its own members. Going beyond academic history, it offers useful perspectives for rebuilding a democratic, militant, community-based unionism that can succeed where today's bureaucratic unionism cannot.
