UW Press - Himalayan Dialogue: Tibetan Lamas and Gurung ...

In the mountain valleys of Nepal, Tibetan communities have long been established through migrations from the North. Because of these migrations over the last few centuries, Tibetan lamaism, as one of the world's great ritual traditions, can be studied in the Himalayas as a process that emerges through dialogue with the more ancient shamanic tradition which it confronts and criticizes.

It found that those living at 1,000-2,000 metres above sea level in the mountain ranges of the west Himalayan state are the most vulnerable to climate change. The study, published in October 2019 by scientists from the Forest Research Institute in Dehradun, surveyed 403 households across four altitude zones. The researchers defined these as ' low ' (less than 1,000 m above sea level ...
