His ability to control technology attracts the attention of the minister of defense and thrusts him into the magical elite of the nation of Carolinia. The son of undocumented immigrants, Noam has spent his life fighting for the rights of refugees fleeing magical outbreaks--refugees Carolinia routinely deports with vicious efficiency. Sensing a way to make change, Noam accepts the minister's offer to teach him the science behind his magic, secretly planning to use it against the government. But then he meets the minister's son--cruel, dangerous, and achingly beautiful--and the way forward becomes less clear. Caught between his purpose and his heart, Noam must decide who he can trust and how far he's willing to go in pursuit of the greater good.

When Matt Rudnitsky's first self-published book earned \$14,000 in profits and an offer from Simon & Schuster ... he was shocked. But Matt quickly realized "getting published" is a glorified scam, and you can reach the same audience (and earn ~5x the profits) by self-publishing. If you know what you're doing, that is. Matt insists that anyone can equal or surpass his success (and self-publish a true "classic") ... if they follow the steps in this book. This isn't your ordinary "book about writing books." It's real, no-BS advice from someone who's done it - and has learned from the dozens of successes and failures of himself and his clients - from self-help to memoir to business, and everything in between. It demystifies every single step of the book writing process, from ideation to validation to outlining to writing habits, publishing and marketing.
