IBM Corp. is expanding its portfolio of automation software with a new offering for communications service providers that ... it takes two to six months of manual-intensive work to set up ...

IBM's newest Cloud Pak offering brings automation to 5G network deployments
AIOps is necessary because the technological systems that run the world are now too complex to be managed by mere humans.

Understanding AIOps: History, Uses, and Future
In a blog post, IBM explained that creating machine learning models these days is an intensively manual task. First, researchers have to train and optimize a model, which involves tasks such as ...

IBM open-sources CodeFlare framework for AI models that run on multicloud platforms
The primary object of this manual is to build an understanding of the principles ... and all of the computer work is done in the context of doing experiments. The IBM-PC design is used as the basis ...

IBM-PC in the Laboratory
Red Hat Advanced Cluster Management for Kubernetes 2.3 also promises tighter integration with Red Hat Ansible Automation Platform ...

Red Hat Kubernetes management update aims to boost hybrid cloud automation
First up, we have the International Business Machines (IBM ... as-a-Service player, Smartsheet (NYSE: SMAR). Through this partnership, Smartsheet users can now automate the management of workflows, ...

Best Artificial Intelligence Stocks To Buy In July 2021? 3 Names To Know
IBM wants to make it easier for mobile operators to automate their networks and simplify the deployment of 5G services, announcing new products and partnerships at MWC 2021 in Barcelona.

MWC 2021: IBM expands 5G portfolio with edge and automation capabilities
The IBM Cloud Pak for Business Automation is also available as software as a service (SaaS), managed by ... by reducing the amount of time spent on manual processes by 80%¹ and decrease customer ...

The Buyer's Guide to Intelligent Business Automation
Verified Market Research recently published a report, "Medical Device Security Market" By Component (Solutions, Services), By Type ...

Medical Device Security Market worth $ 9.49 Billion, Globally, by 2028 at 8.40% CAGR: Verified Market Research™
Research conducted by Dimensional Research for Tripwire this year found gaps and challenges companies were facing across sectors, especially in multi-cloud environments. The primary goal of the ...

With Aggressive Growth Comes New Challenges For Cloud Security
Fully 98% of security experts said using multiple cloud providers creates additional security challenges and that providers should do more.

Public cloud security 'just barely adequate,' experts say
UEM has emerged as the next step in the development of enterprise mobility software, offering better management of a wider range of devices. By extending EMM capabilities to laptops and desktops, UEM ...

What is UEM? Unified endpoint management explained
Big Language Solutions (BIG) announced the acquisition of UK-based life sciences translation specialist, Dora Wirth Languages (DWL). The terms of the transaction, which closed on July 1, 2021, were ...

Big Language Solutions Buys Life Sciences Specialist Dora Wirth Languages
Combining language with technology has driven innovation in artificial intelligence for decades. With the right strategy, it can help businesses today.

AI Strategies: What Is Natural Language Processing and How Can It Help Businesses?
The blockchain-enabled digital shipping platform Tradelens is quickly adding new members in China, three years after it was jointly developed by Maersk Line and IBM Corp. as a way to ... Those steps ...

Maersk and IBM's Tradelens container shipping data platform expands in China
"Every role is going to be changed by technology and augmented - not necessarily replaced but made better," Brenda Harvey, IBM General Manager ... By automating repetitive, manual tasks ...

Building Value with Automation – How CIOs Can Start Delivering Improved Productivity Quickly
Furthermore, cloud computing enables the healthcare sector to enhance or decrease data storage capacity, as a result of which many healthcare service providers ... Systems (US), IBM (US), GE ...

This IBM® Redbooks® publication is an IBM and Cisco collaboration that articulates how IBM and Cisco can bring the benefits of their respective companies to the modern data center. It documents the architectures, solutions, and benefits that can be achieved by implementing a data center based on IBM server, storage, and integrated systems, with the broader Cisco network. We describe how to design a state-of the art data center and networking infrastructure combining Cisco and IBM solutions. The objective is to provide a reference guide for customers looking to build an infrastructure that is optimized for virtualization, is highly available, is interoperable, and is efficient in terms of power and space consumption. It will explain the technologies used to build the infrastructure, provide use cases, and give guidance on deployments.

The Manual of Engineering Drawing has long been recognised as the student and practising engineer's guide to producing engineering drawings that comply with ISO and British Standards. The information in this book is equally applicable to any CAD application or manual drawing. The second edition is fully in line with the requirements of the new British Standard BS8888: 2002, and will help engineers, lecturers and students with the transition to the new standards. BS8888 is fully based on the relevant ISO standards, so this book is also ideal for an international readership. The comprehensive scope of this book encompasses topics including orthographic, isometric and oblique projections, electric and hydraulic diagrams, welding and adhesive symbols, and guidance on tolerancing. Written by a member of the ISO committee and a former college lecturer, the Manual of Engineering Drawing combines up-to-the-minute technical accuracy with clear, readable explanations and numerous diagrams. This approach makes this an ideal student text for vocational courses in engineering drawing and undergraduates studying engineering design / product design. Colin Simmons is a member of the BSI and ISO Draughting Committees and an Engineering Standards Consultant. He was formerly Standards Engineer at Lucas CAV. * Fully in line with the latest ISO Standards * A textbook and reference guide for students and engineers involved in design engineering and product design * Written by a former lecturer and a current member of the relevant standards committees

This IBM® RedpaperTM publication is a brief overview of synergistic aspects between various VMware offerings and the IBM SpectrumTM Accelerate family, including IBM XIV® and IBM FlashSystem® A9000 and IBM FlashSystem A9000R servers. After reviewing different integration concepts and explaining general implementation aspects for attaching the IBM Spectrum AccelerateTM family to VMware ESXi deployments, the paper focuses on components that are enabled by IBM Spectrum Connect v3.4. This paper is intended for planning to use or implementing the IBM Spectrum Accelerate family of storage systems in a VMware environment.

The new RISC-V Edition of Computer Organization and Design features the RISC-V open source instruction set architecture, the first open source architecture designed to be used in modern computing environments such as cloud computing, mobile devices, and other embedded systems. With the post-PC era now upon us, Computer Organization and Design moves forward to explore this generational change with examples, exercises, and material highlighting the emergence of mobile computing and the Cloud. Updated content featuring tablet computers, Cloud infrastructure, and the x86 (cloud computing) and ARM (mobile computing devices) architectures is included. An online companion Web site provides advanced content for further study, appendices, glossary, references, and recommended reading. Features RISC-V, the first such architecture designed to be used in modern computing environments, such as cloud computing, mobile devices, and other embedded systems Includes relevant examples, exercises, and material highlighting the emergence of mobile computing and the cloud
