Hi, I have a 2007 GMC C8500 with an Isuzu 6HK1-TC 7.8L Diesel. I was wondering if there is a synthetic oil you can recomend for use in this motor and any recommendations as to oil weights since the standard in diesel engines use to be 15w-40, but now seems to be 5w-40. The recommendation from GMC is a 10w-40 which is nearly impossible to find.
