The text focuses on the central goal of linear algebra: understanding the structure of linear operators on finite-dimensional vector spaces. The author has taken unusual care to motivate concepts and to simplify proofs. A variety of interesting exercises in each chapter helps students understand and manipulate the objects of linear algebra.

I recently started reading Sheldon Axler's Linear Algebra Done Right and I find the formatting and design of the text quite appealing. I provided a page as an example. What I'm interested in the most is how the text boxes are created and how the text in the body wraps around the boxes correctly. How could I create text boxes like that?
