"The way that Big Money got to be Big Money was by also being the 'Smart Money', and so it is worth paying attention to how the Big Money traders behave. That's the essence of what Larry Williams has to teach us in this book. And it's not just what the Smart Money says or thinks, but how they behave in terms of their trading that we should pay attention to. Larry shows us how to listen to that message." \Tom McClellan, Editor of The McClellan Market Report "Finally, an insider's take on what really goes on behind the scenes in commodity trading. Larry writes his view of trading, as only he knows it, from his twenty-five years of experience." \James Altucher, author of Trade Like a Hedge Fund Successful trader Larry Williams reveals industry secrets that help investors and traders successfully invest and trade side-by-side with the largest commercial interests in the world. You'll be introduced to the COT (Commitment of Traders) report, the best resource for achieving trading success, learn exactly what the information it contains means, and plan for maximizing profits by acting on reported actions.

Offers advice on how to successfully trade in the commodity market by discussing such topics as where to go for help, how to build a system, moving averages, and forecasting

Wiley Online Trading for a Living When to get in-when to get out Build, test & trade a winning system Online brokers, research & market data For those who are well suited to day trading and short-term trading, the futures market is one of the best games in town. As the original short-term vehicle, the futures market allows the trader to collapse the time frame in which he or she can reach the desired profit target-or pain threshold. As a result, wins and losses are compounded much more quickly than in stock trading-and, in the case of wins, often more profitably. The ability to gain leverage with very little on margin gives you, the trader, the ability to earn more off smaller swings. And enough home runs could allow you to become your own boss, work from home in your bathrobe, or even work from your cell phone while lying on the beach. So far, so good. But what does it take to win? In Day Trade Futures Online, award-winning veteran futures trader Larry Williams gives a no-holds-barred view of the risks and rewards of this increasingly accessible arena. His straightforward approach to helping you determine your trading personality is the first step. Then he offers traders what they really need: strategies and tactics designed to beat the futures markets. From hardware and software setup to trading psychology and successful strategizing, this highly readable book covers all the bases needed to prepare you to trade online, including: * Assessing your risk threshold * Streamlining the glut of trading and price information to make it work for you * The importance of knowing how to manage your money * Choosing an online broker and utilizing other online resources, such as news, chat rooms, and message boards * When to get out of your trades * Building a system based on Larry's time-tested strategies. . . and that's just for starters. Also included are an appendix of basic futures concepts and a select bibliography of some of the best learning resources. With good humor and brutal honesty, Williams guides you in building the trading system that will work best for you. GET IN ON THE ORIGINAL SHORT-TERM GAME WITH BIG-TIME PROFITS With unflinching honesty and decades of trading experience, award-winning veteran futures trader Larry Williams lends his expertise to the many aspects of futures trading online, including: * Winning strategies * Determining your trading personality * The art of using the Internet * Hardware and software solutions * History and development of short-term trading Praise for Larry Williams and day trade futures online "Larry Williams, the astute and experienced trader, has presented the reader with many computer-tested patterns that should give one an edge up in the hard world of day trading. He not only gives the patterns, he explains the 'why' of market action and what it takes to be successful from a psychological and money management standpoint. This is one of the best practical books ever written on trading by a veteran trader. Buy it."-John Hill, President, Futures Truth Co. "Larry possesses an incredible talent to differentiate between what is important in life as well as in the markets. In his book, he shares insights into market behavior and short-term price dynamics that are useful to beginning and experienced traders alike. Whereas most day trading books merely discuss the market in generalities, Larry focuses on computer-tested techniques that can actually help make traders profitable. This is Larry at his best and finest!"-Tom DeMark, President, Market Studies Inc., author of New Science of Technical Analysis and New Market Timing Techniques "Day Trade Futures Online is another must-have Larry Williams trading book. That's because nearly all the profitable futures traders I've known have attributed their trading success to an idea or concept learned from Larry. When Larry speaks, you better listen."-Gary Smith, author of How I Trade for a Living

Larry Williams has never backed away from authority, especially government authority - the U.S. or any other. Including two battles all the way to the Supreme Court. Libertarian, trader, would be politician, and Indiana Jones-like adventurer, Larry has gone wherever his spirit moved him and bucked state constraints whenever he found them stifling. Throughout his life, his rebellious spirit served him well - huge successes in trading, to adventures right out of a Graham Greene novel in Saudi Arabia, two boisterous runs for the U.S. Senate, a famous actress daughter entangled with an even more famous actor, a new grandchild - the life well lived that would be the envy of most people. Along the way, Larry became a tax protester in the spirit of John Cheek and Irwin Schiff. However, Larry was far too free a spirit to give up his freedom for his beliefs, and figured that he was smarter than the zealot tax protesters now making license plates, particularly after meeting a man with an actual and real document from the IRS acknowledging the legitimacy of a certain kind of trust. But things are not always what they seem. Annoying letters from the IRS called for hiring an attorney to "work things out," which he thought (based on the bills he was paying) was in the works. Enjoying a pleasant flight in first class from South Africa to Australia, Larry, at the age of 64 with a new granddaughter and 5 children settled in successful lives of their own, reflected that life was pretty sweet. Then his plane landed in Australia and he was summarily arrested and jailed and taken to prison There began a nearly 4 year fight for his freedom at a huge financial cost; worse was the toll it took on his psyche. This is the story of Larry's war with the IRS and U.S. Dept. of Treasury and inside view of the world of tax protesters. Larry explains why the tax protest movement exists, where it is dead wrong and why it will most often lead followers to prison. He also weighs in on what can be done to correct the unfairness of the tax codes, and why tax rates are so astronomical, that the 'fair share' idea should be applied to what is the 'fair share' of your income the government is 'entitled' to.

This fascinating book is loaded with practical information designed to help you in the commodity market. The author's method...proven by his million dollar success...does not involve complicated math or subjective evaluation. There are two completely systematic methods; %R and Momentum. The essence fo these methods is that they tell you if the super powers are long or short; when the super powers expect a major move to start; what commodities are in true bull or bear markets; when to start buying and when to sell for gargantuan profits. This book is a must if you're a stock or commodity trader. It will expose to you an exciting new approach to trading and thinking\the same approach that has made Larry Williams a millionaire.

How two former traders of William J. O'Neil + Company made mad money using O'Neil's trading strategies, and how you can, too From the successes and failures of two William O'Neil insiders, Trade Like an O'Neil Disciple: How We Made Over 18,000% in the Stock Market in 7 Years is a detailed look at how to trade using William O'Neil's proven strategies and what it was like working side-by-side with Bill O'Neil. Under various market conditions, the authors document their trades, including the set ups, buy, add, and sell points for their winners. Then, they turn the magnifying glass on themselves to analyze their mistakes, including how much they cost them, how they reacted, and what they learned. Presents sub-strategies for buying pocket pivots and gap-ups Includes a market direction timing model, as well as updated tools for selling stocks short Provides an "inside view" of the authors' experiences as proprietary, internal portfolio managers at William O'Neil + Company, Inc. from 1997-2005 Detailing technical information and the trading psychology that has worked so well for them, Trade Like an O'Neil Disciple breaks down what every savvy money manager, trader and investor needs to know to profit enormously in today's stock market.

You are shown William's personal technique for picking stocks based on identifying what stocks are under professional buying or selling. In addition, you'll learn how to successfully forecast the market's short, intermediate and long term trend; and be shown how to combine stock selection with market timing to improve your results.
