Mikuni BS (CV) Carburetor Rebuild Tutorial Screwdriver blades need to fit snug into slots otherwise screw can get stripped. If these screws seem stuck, do NOT force them , use penetrating lubricant, such as PB Blaster, and a heat gun on the carbbody, then try again. Screwdriver blade should be .0385" thick at tip for removing pilot screw

These parts have been designed by Mikuni to allow for the correct amount of compression to be applied to the o-ring, and it is very important that the correct size and thickness of o-ring is used.

Choosing a 10 x 1mm, or 10 x 1.5, the common metric sizes, because it is "close enough" is incorrect and will result in an inadequate seal or mis ...

Genuine Mikuni jets for BS series carbs. If your jet does not measure like the pictured jet do not buy it. There are so many variables regarding the type of jet that could be in the carb. We have no control over jets once they leave us; some customers drill them out, test and tune etc. therefore all jet sales have to be final so customers do ...

Mikuni RS Series Carburetor (RS36-D3 K) – 36mm RS36-D3 K. The Mikuni RS Series Carburetors were designed and built in response to the needs of the worlds top motorcycle road race and drag race teams. They required carburetors which could satisfy the precise fuel metering demands and high flow volume required by highly modified race engines.
