Clerkship guide - AMBOSS
The goal of the Third Year Neurology clerkship is to prepare the student to identify diseases and situations in which neurological evaluation is appropriate so that the student understands as a practitioner when neurological consultation is appropriate and when emergent neurological intervention is needed.

Goals & Objectives
This clerkship introduces students to the discipline of neurology by providing a broad exposure to the fundamental elements related to delivering clinical care to a neurological patient and the fundamental concepts associated with ethics, research and education in neurosciences. Students rotate through inpatient and outpatient clinical sites.
