The first single-project GIS textbook on the market, *Understanding GIS: An ArcGIS Pro Project Workbook*, third edition is an excellent resource for students and educators seeking a guide for an advanced, single-project-based course that incorporates GIS across a wide range of disciplines. It allows readers to progress through nine lessons using ArcGIS Pro software from Esri to find the best location for a new park along the Los Angeles River in Southern California.

This workbook accompanies the thoroughly revised third edition of *Integrated Korean: Intermediate 1*, the third volume of the best-selling series developed collaboratively by leading classroom teachers and linguists of Korean. All the series' volumes have been developed in accordance with performance-based principles and methodology--contextualization, learner-centeredness, use of authentic materials, usage-orientedness, balance between skill getting and skill using, and integration of speaking, listening, reading, writing, and culture. Grammar points are systematically introduced in simple but adequate explanations and abundant examples and exercises. Each situation/topic-based lesson of the main texts consists of model dialogues, narration, new words and expressions, vocabulary notes, culture, grammar, usage, and English translation of dialogues. In response to comments from hundreds of students and instructors of the second edition, this new third edition features an attractive color design with new photos and drawings and lesson and vocabulary exercises that have been fully reorganized. Each lesson contains a conversational text (with its own vocabulary list) and a reading passage. The accompanying workbook--available online as well as in paperback--provides students with extensive skill-using activities based on the skills learned in the main text. *Integrated Korean* is a project of the Korean Language Education and Research Center (KLEAR) with the support of the Korea Foundation. In addition to the five-level *Integrated Korean* textbooks and workbooks, volumes include *Korean Composition*, *Korean Language in Culture and Society*, *Korean Reader for Chinese Characters*, *Readings in Modern Korean Literature*, *A Resource for Korean Grammar Instruction*, and *Selected Readings in Korean*. Audio files for this volume may be downloaded in MP3 format at <https://kleartextbook.com>

An innovative, five-level beginner's course for young learners from the age of 10.

NEW texts, topics, and activities such as comics, songs, and stories 'English across the curriculum' page (CLIL) in every unit of every level Revision pages in every unit help to check the class' progress regularly Graded exercises in the Workbook and projects in the Student's Book to suit mixed-ability students

Project brings English to life through motivating topics within a structured learning environment. It provides a clearly-structured, supportive framework of grammar with the flexibility to allow students to make their own discoveries. Language is presented in stimulating, realistic contexts. A high profile is given to skills development from the start of the course. Cross-curricular project work encourages students to communicate in English about their own lives and experiences. The strong cultural element helps students to establish a connection between language and life. Students are encouraged to learn about life in Britain and other English-speaking countries, as well as to explore differences and

draw comparisons with their own cultures. Strong emphasis is placed on learner independence: students are encouraged to think about their own learning and reflect on their progress. The course is enriched by numerous songs, games, and puzzles which make language learning fun. The fifth level, Project Plus, is a revision level with the emphasis on skills extension, in particular reading and speaking.
