The Handbook of Group Counseling and Psychotherapy is a comprehensive reference guide for group practitioners and researchers alike. Each chapter reviews the literature and current research as well as suggestions for practice in the psycho educational arena, counselling, and therapy groups. The Handbook encourages the notion that the field is improved through increased collaboration between researchers and practitioners. Through a review of cutting-edge research and practice, the Handbook includes) 48 articles by renowned experts in group work) the history and theory of group work) topics across the lifespan) an entire section on multicultural issues) a variety of clinical problems and settings) appendices include the Association for Specialists in Group Work Training Standards, Best Practice Standards, and Principles for Diversity-Competent Group Workers The Handbook is divided into seven sections: Current and Historical Perspectives on the Field of Group Counseling and Psychotherapy, reviews and analyzes the many contributions and contributors that have made group counselling and psychotherapy a vital and potent treatment method. The chapter outlines review articles spanning four decades, and outlines the evolution of group themes over the last 100 years. Best Practices in Group Counseling and Psychotherapy uses research, theory, and group counseling experience to provide group leaders and researches with the most current and best practices in conducting group counseling and psychotherapy. Multicultural Groups follows the ASGW Principles for Diversity-Competent Group Workers and is intended to provide group leaders with essential information about different cultural groups and their world views, perceptions of groups, naturalistic healing methods, suggested group interventions, and implications for groups. Chapters cover Native-Americans, Latinos, Asians, and African-Americans, disabled persons, and gender and sexuality. Groups Across Settings includes examples of psycho-educational, counselling, and psychotherapy groups in a variety of settings. This section presents readers with theoretical and empirical support for group work in such settings as the Veterans Administration system, university counselling centers, and more. Groups Across the Lifespan consist of chapters across many age groups. For children and adolescents, cognitive and developmental issues are addressed. For adults, socialization and interpersonal issues are addressed, including separate chapters for male and female groups. Finally, a chapter on the elderly deals with cognitive, health, and life review issues. Special Topics Groups presents a continuum of different types of groups used to treat people with interpersonal and developmental issues, such as grief, substance abuse, depression, and others. Each chapter in this section provides definitions and descriptions of the issues along with theoretical and empirical support. Finally, Critical Issues and Emerging Topics attempts to reflect the zeitgeist and provide a glimpse into group interventions for the future. Emerging issues, such as online groups, prevention groups, and peer-led mutual help groups receive careful attention and analysis. The Handbook of Group Counseling and Psychotherapy, the first reference devoted to this emerging and rapidly growing field, is essential for academics, researchers, professionals, and librarians serving the group therapy community. There is no similar reference available, and it will prove a landmark volume for years to come.

Covers ethical issues and evidence-based practice Integrates therapists' reflections on their own social identityand how this may have influenced their work with their clients Considers the intersectionality of racial/ethnic, class,religious, gender, and sexual identities Contains reflection and discussion questions, an analysis ofeach case by the author, and recommended resources Includes cases on racial/ethnic minority populations, gender,sexuality, poverty, older adults, immigrants, refugees, and whiterapists working with people of color Aligns with the ACA's CACREP accreditation standards, the APAguidelines for multicultural competence, and the AMCD MulticulturalCounseling Competencies

The overriding theme of Group Work: Processes and Applications is a focus on the specialized group work that counselors perform from a systemic perspective in a multicultural context. This text briefly covers traditional theoretical approaches, focusing more on the techniques and applications of the approaches, but the core of the text involves the systemic approach to group work: preparing group leaders to facilitate the systemic group process, from planning the group through the four stages of group work: forming and orienting, transition, working, and termination. The content is aligned with 2016 CACREP standards. Numerous other techniques, covered, are linked with specific theoretical orientations.

The Handbook of Group Research and Practice is a unique interdisciplinary resource that integrates what is known about group research and practice across the disciplines and professions. The chapters have been written by world-renowned researchers and practitioners who work with teams and groups in a variety of settings. As a result, this Handbook provides students, academics, and practitioners with the most comprehensive understanding about the latest findings and issues in group research and practice.
