Reproductive tract infections (RTIs) have become a silent epidemic that is devastating women's lives. Each year, thousands of women die needlessly from the consequences of these infections, including cervical cancer, ectopic pregnancy, acute and chronic infections of the uterus and the fallopian tubes, and

Download File PDF

Questionnaire Design

Reproductive Health Series
Module 4

puerperal infections. For many women, this happens because they receive medical attention too late, if at all. The terrible irony of this tragedy is that early diagnosis of and treatment for many RTIs do not require high-technology health care. For the hundreds of millions of women with chronic RTIs acquired from their sexual
