Saab 9000 Engine Tuning The 2litre engine are about as strong as engines get and are more than happy to rev, and due to their shorter stroke and more rev happy than the 2.3litre engines. Tuning the engine up to 1991 year is easy but make sure the car has an intercooler and Performance Control Valve.

Saab 9000 Tuning Guide | StrikeEngine

There's no elegantly loquacious way of saying this, so I'll just say it: Our car doesn't have an Aero engine. An automatic Saab 9000 Aero should have a B234L engine and ours has a B234E engine. The engine was changed at some stage and an Ecopower engine was installed.

Our Saab 9000 Aero — Swadeology

The "hotter" 9000's such as Carlsson and Aero models make a good basis for out and out road-eating monsters able to cover huge distances in very short times, but for more everyday use, a 2.0 or 2.3 Ecopower model is a very good basis for tuning.

Saab 9000 Parts & Upgrades | Abbott Saab

Despite the name it is not an H engine or horizontally opposed engine, but a slanted inline-4. The H engine was introduced in 1981 in the Saab 900 and was also used in the Saab 99 from 1982 onwards. H stood for high compression, higher compression was part of the update from B to H engine. It continued in use in the 900/ 9-3, 9000, and 9-5.
