The Samsung Galaxy Tab 8.9 is an Android-based tablet computer designed and manufactured by Samsung, introduced on 22 March 2011 at CTIA wireless convention in its Samsung Unpacked event in Orlando. It is part of the Samsung Galaxy Tab series, and features an 8.9-inch display and a 1 GHz dual-core Nvidia Tegra 2 processor.

Around the world, countries are searching for ways of making their schools more effective for all children and young people. This book offers a new way of thinking about how to address this challenge. It sees improvement as requiring a collective effort that involves contributions from all members of a school community. Crucial to this is the idea of ethical leadership. Promoting Equity in Schools is written by a team of academic researchers who had a most unusual opportunity to work with a network of schools over three years, experimenting to find more effective ways of including hard to reach learners. Bringing together practitioner knowledge and ideas from research carried out from a variety of perspectives, the authors provide rich accounts of what happened when the schools attempted to become more inclusive and fairer. In so doing, they throw light on the challenges this presents for school leaders. The accounts presented in the book are located in Queensland, Australia, where the school system faces significant difficulties in relation to equity that resonate with similar difficulties around the world. These difficulties relate to policies that emphasize high-stakes testing and school choice, which tend to promote increased segregation, to the particular disadvantage of young people from low income and minority backgrounds. The arguments presented suggest that even where worrying policies are in place, with leadership driven by a commitment to equity, schools can still find space to develop more equitable ways of working.

Presents a guide to the features of the Samsung Galaxy Tab 3, covering such topics as the Android operating system, using Google Play, sending email and multimedia messages, installing and maintaining apps, and connecting to the cloud.

Vols. for 1964- have guides and journal lists.

#1 NEW YORK TIMES BESTSELLER • More than one million copies sold! A "brilliant" (Lupita Nyong'o, Time), "poignant" (Entertainment Weekly), "soul-nourishing" (USA Today) memoir about coming of age during the twilight of apartheid "Noah's childhood stories are told with all the hilarity and intellect that characterizes his comedy, while illuminating a dark and brutal period in South Africa's history that must never be forgotten."—Esquire Winner of the Thurber Prize for American Humor and an NAACP Image Award • Named one of the best books of the year by The New York Time, USA Today, San Francisco Chronicle, NPR, Esquire, Newsday, and Booklist Trevor Noah's unlikely path from apartheid South Africa to the desk of The Daily Show began with a criminal act: his birth. Trevor was born to a white Swiss father and a black Xhosa mother at a time when such a union was punishable by five years in prison. Living proof of his parents' indiscretion, Trevor was kept mostly indoors for the earliest years of his life, bound by the extreme and often absurd measures his mother took to hide him from a government that could, at any moment, steal him away. Finally liberated by the end of South Africa's tyrannical white rule, Trevor and his mother set forth on a grand adventure, living openly and freely and embracing the opportunities won by a centuries-long struggle. Born a Crime is the story of a mischievous young boy who grows into a restless young man as he struggles to find himself in a world where he was never supposed to exist. It is also the story of that young man's relationship with his fearless, rebellious, and fervently religious mother—his teammate, a woman determined to save her son from the cycle of poverty, violence, and abuse that would ultimately threaten her own life. The stories collected here are by turns hilarious, dramatic, and deeply affecting. Whether subsisting on caterpillars for dinner during hard times, being thrown from a moving car during an attempted kidnapping, or just trying to survive the life-and-death pitfalls of dating in high school, Trevor illuminates his curious world with an incisive wit and unflinching honesty. His stories weave together to form a moving and searingly funny portrait of a boy making his way through a damaged world in a dangerous time, armed only with a keen sense of humor and a mother's unconventional, unconditional love.

This book is a printed edition of the Special Issue "Sound and Music Computing" that was published in Applied Sciences

Helps graphic designers get the most out of this nextgeneration graphics file format and programmers who want to add full PNGsupport to their own applications by emphasizing the implementation of PNG with the libng C library and discussing such improvements as gamma correction and standard color spaces. Original. (Intermediate)

The inspiring, life-changing bestseller by the author of LEADERS EAT LAST and TOGETHER IS BETTER. In 2009, Simon Sinek started a movement to help people become more inspired at work, and in turn inspire their colleagues and customers. Since then, millions have been touched by the power of his ideas, including more than 28 million who've watched his TED Talk based on START WITH WHY -- the third most popular TED video of all time. Sinek starts with a fundamental question: Why are some people and organizations more innovative, more influential, and more profitable than others? Why do some command greater loyalty from customers and employees alike? Even among the successful, why are so few able to repeat their success over and over? People like Martin Luther King Jr., Steve Jobs, and the Wright Brothers had little in common, but they all started with WHY. They realized that people won't truly buy into a product, service, movement, or idea until they understand the WHY behind it. START WITH WHY shows that the leaders who've had the greatest influence in the world all think, act, and communicate the same way -- and it's the opposite of what everyone else does. Sinek calls this powerful idea The Golden Circle, and it provides a framework upon which organizations can be built, movements can be led, and people can be inspired. And it all starts with WHY.
