I picked up the book and thumbed through the pages. Names in alphabetical order, names with meanings, names I knew, names I'd never heard of. How to pick? Nothing that would stand out, nothing that would link me to the past - those were the instructions. The past. As if everything that had gone before this moment was buried already. Being the new girl at school is hard. But when you've been forced to abandon your old life, your old friends and even your old identity, hard doesn't begin to cover it. That's the point of witness protection, though. And it's the only thing that can keep Holly and her family safe. But how is she supposed to start a new life when one wrong move could put all their lives in danger?

"When Lizzie's car crashes with her two daughters inside, she faces a terrible choice. As Lizzie and her family struggle to come to terms with the events of that night, things take an even darker turn. Just what did happen on that remote country road? Who is responsible? And can the family get through this together...Or will the truth finally tear them apart?"--Publisher.

An original and captivating book for young adults by the Laura Jarrett, critically acclaimed author of Skin Deep. I picked up the book and thumbed through the pages. Names in alphabetical order, names with meanings, names I knew, names I'd never heard of.

How to pick? Nothing that would stand out, nothing that would link me to the past - those were the instructions. The past. As if everything that had gone before this moment was buried already. Holly is fifteen years old, but she's only been "Holly" for a matter of months. Because of something that happened, she and her family have had to enter witness protection and have all assumed new identities. All, that is, except her sister Katie, who is autistic. Starting at a new school mid-term is hard enough at the best of times, and Holly has no clue who she is any more. Lonely and angry, she reaches out to friends - new and old. But one wrong move will put all their lives in danger. Laura Jarrett is one of the finest authors writing books for young adults in Britain today. Praise for By Any Other Name 'Intensely romantic, really thrilling . . . Of the 60 or so books I've read so far this year, this is one of the very, very best.' Bookbag 'I loved it and I can't stop raving about it.' Guardian

A New York Times Bestseller From the author of the New York Times bestseller All the Bright Places comes a heart-wrenching story about what it means to see someone—and love someone—for who they truly are. Everyone thinks they know Libby Strout, the girl once dubbed "America's Fattest Teen." But no one's taken the time to look past her weight to get to know who she really is. Following her mom's death, she's been picking up the pieces in the privacy of her home, dealing with her heartbroken father and her own grief. Now, Libby's ready: for high school, for new friends, for love, and for EVERY POSSIBILITY LIFE HAS TO OFFER. In that moment, I know the part I want to play here at MVB High. I want to be the girl who can do anything. Everyone thinks they know Jack Masselin, too. Yes, he's got swagger, but he's also mastered the impossible art of giving people what they want, of fitting in. What no one knows is that Jack has a newly acquired secret: he can't recognize faces. Even his own brothers are strangers to him. He's the guy who can re-engineer and rebuild anything in new and bad-ass ways, but he can't understand what's going on with the inner workings of his brain. So he tells himself to play it cool: Be charming. Be hilarious. Don't get too close to anyone. Until he meets Libby. When the two get tangled up in a cruel high school game—which lands them in group counseling and community service—Libby and Jack are both pissed, and then surprised. Because the more time they spend together, the less alone they feel. . . . Because sometimes when you meet someone, it changes the world, theirs and yours. Jennifer Niven delivers another poignant, exhilarating love story about finding that person who sees you for who you are—and seeing them right back. "Niven is adept at creating characters. . . . [Libby's] courage and body-positivity make for a joyful reading experience." --The New York Times "Holding Up the Universe . . . taps into the universal need to be understood. To be wanted. And that's what makes it such a remarkable read." —TeenVogue.com, "Why New Book Holding Up the Universe Is the Next The Fault in Our Stars" "Want a love story that will give you all the feels? . . . You'll seriously melt!"—Seventeen Magazine
