This book presents one of the most outstanding private collections of 20th-century American art in the world and tells the story of how the collection evolved and eventually found a new home at Stanford University. Featuring 121 artworks, the book includes scholarly essays on the collectors, the collection, and the individual artists and artworks represented in this significant postwar and contemporary collection. The book offers a fascinating insight into the world of art collecting, curating, research, and philanthropy, as well as a magnificent sampling of works from some of America's greatest artists.

In 1927, tired of the literary life of New York City, New Orleans, and Chicago, a famous but aging American writer named Sherwood Anderson (1876-1941) -- author of Winesburg, Ohio (1919) and other short stories in which he virtually invented the modern American short-story -- moved to rural Southwest Virginia to write for and edit two small-town weekly newspaper that he owned, the Marion Democrat. and the Smyth County News. Living again among the small-town figures with whom he was usually most content, William Faulkner, Thomas Wolf, and indeed an entire generation of the greatest American writers -- worked for several years at making his newspaper nationally famous while struggling to come to terms with a life-threatening psychological depression and a failing third marriage. Both of Anderson's midlife problems were complicated when he met Eleanor Copenhaver, lovely young daughter in one of the prominent first families of Marion and a career social worker for the YWCA. Trying to keep their ardent affair secret in the small town, Anderson avidly courted the socially prominent and much younger Miss Copenhaver while at the same time trying to free himself from his embittered third wife and overcome the disadvantages of his age and his lover's family's distrust of him. Having by the end of 1931 continued for three years his surreptitious and consuming affair with Miss Copenhaver, Anderson determined on the first day of 1932 that the new year should be the year of decisions for him to gain his love in marriage or perhaps to end his life, and he began the new year with a creative venture unique in literature. Starting on January 1, Anderson secretly wrote and hid away for Eleanor Copenhaver to find after his eventual death one letter each day, letters that she should someday discover, whether they had ever become married or not, and thereby revive in her memory their days of intense lovemaking a mutual despair about their then-unlikely marriage.Found by Eleanor Copenhaver Anderson only at Sherwood Anderson's death in 1941 and then preserved intact by this grieving widow who had married Anderson in 1933, the carefully hidden letters of 1932 recording their intense and seemingly doomed love affair have remained secret until now. Chosen by Eleanor Copenhaver Anderson before her death in 1985 to publish her husband's secret love letters, Anderson scholar Ray Lewis White has prepared a fascinating edition of these unique letters for the enjoyment of students and scholars of literature as well as for all other readers who savor compelling and inspiring stories of loss and love.

Born the only son of wealthy slave holding plantation owner Jared Anderson has loved but one woman, Ruby Sanders, since they children growing up together on the plantation. But Ruby is a slave. And when their love for each other was discovered, Ruby was sent off to another plantation. It is nearing the end of the Civil War and Jared has made the ultimate sacrifice. He has become a deserter from the Confederate Army in order to fulfill a promise he made to Ruby when they were children -- that one day she would be free. To full-fill that promise Jared has moved his entire family, including Ruby, west to the Colorado territories. Along the way, they encountered drought, fire, a raging Mississippi River and two unexpected rivals. Now, those rivals are about to play an integral part in Ruby and Jared 's destiny. We pick up the story as Mennonite outcast Lorelei Hansmueller has followed Jared to Fort Latham, Colorado, after the death of her father, in hopes of making Jared her husband. Is Lorelei too late? On the night of the fire, that destroyed Henry Wilkes ' new home, Ruby and Jared finally gave in to their passion and Ruby is pregnant with Jared 's child. But can Ruby and Jared hold onto their relationship in a time when love, let alone marriage, between the races is strictly forbidden? Or will Lorelei force Jared into another loveless marriage with the threat of revealing his deadly secret?

A decade of political infighting over comprehensive immigration reform appears at an end, after the 2012 election motivated the Republican Party to work with the Democratic Party's immigration reform agendas. However, a guest worker program within current reform proposals is generally overlooked by the public and by activist organizations. Also overlooked is significant corporate lobbying that affects legislation. This updated edition critically examines the new guest worker program included in the White House and Congressional bipartisan committee s immigration reform blueprints and puts the debate into historical and contemporary contexts. It describes how the influential U.S. Chamber of Commerce and the AFL-CIO agreed on guidelines for a new guest worker program to be included in the plan. Gonzalez shows how guest worker programs stand within a history of utilizing controlled, cheap, disposable labor with lofty projections rarely upheld. For courses in a wide variety of disciplines, this timely text taps into trends toward teaching immigration politics and policy.Features of the New Edition*

While a few commentators have recognized the parallels of the guest worker programs for Mexican immigrants to the United States to the bracero policies early in the 20th century, fewer still connect those policies to traditional forms of colonial labor exploitation such as that practiced respectively by the British and French colonial regimes in In
