Still, Finn Douglas has big plans for his inheritance and the rambling manor house that dominates the landscape. He has a vision to turn the island into a resort getaway for overworked city dwellers. But when the broken body of his business partner is found at the base of the rocky escarpment, he fears it wasn't an accident. Special Agent Craig Frasier agrees to help his cousin Finn by investigating and, with psychologist Kieran Finnegan at his side, heads to the island. As Craig and Kieran delve into the history of the Douglas estate, they discover that the property comes complete with strange lore and a blood-soaked past. Something evil seems to be lurking in the caverns that run beneath the stony ground. Is there something on the island that someone is willing to kill to protect? on an island off New Orleans is actress Avalon Morgan's creepiest role to date. It's also scary good fun--until the victim of a real killer is discovered on set, laid out for all to see. With production shut down, Avalon can't stop thinking about the chilling crime scene, or Finley Stirling, the FBI agent working the case. With a rising body count and zero leads, Fin can't help but be impressed by Avalon's amateur sleuthing, which takes her to the darkest corners of the internet, where killers confess their crimes. One such account is a dead ringer for the murders, but when the evidence vanishes, nobody believes Avalon--except for Fin. With no one they can trust, Avalon and Fin are determined to unbury the truth at any cost, but a return to the deadly island could be the last thing they do.
