Trouble Makers I was given Trouble Makers as an ARC book to read for an honest review. And honestly, this is a book that is a must read, especially if you are a rock romance fan. ... This is the second box set from the Trouble Series by Emme Rollins. It contains the story of Katie and Tyler. I truly enjoyed reading the three books in this boxed ...

When your best friend falls in love with a rock star, you either join her in her fixation, or you spend a lot of nights eating ice cream and watching Netflix by yourself. If you can't beat them, join them, isn't that what they say? While Bree-my best friend since forever-couldn't get enough of "Trouble" and their lead singer, Rob Burns, I set my sights a little lower - and to the left. Rob's immediate left, that is, at least on stage. Tyler Cook was Trouble's lead guitarist, a tall, glorious, dark blonde, beautiful specimen of a man who could make ovaries explode and panties drop with just one twist of that smirky smile of his. Of course, it was all just in good fun, two girls going to Trouble concerts and screaming ourselves hoarse along with the rest of the fans. Bree's fascination with Rob, and mine with Tyler, was a fun little fantasy, a distraction from our boring everyday lives, mine as a dental hygienist and Bree's as an elementary school music teacher, until one day the "what-if" game Bree liked to play-and in, "what if we met Trouble some day?" and "What if they asked us to go on tour with them?"-actually happened. Actually. Happened. One minute we were going to see Trouble in concert, and the next, we were backstage, face-to-face with the real-live, sexy thing. I never expected to meet rock god Tyler Cook. I never expected to end up on a tour bus with sex god Tyler Cook. I certainly never expected to fall in love with the man, that beautiful, broken, wild man, or become so hooked I simply couldn't give him up-no matter what it cost, or who I hurt, even myself. Because sometimes you have to stop asking yourself, "What if?" Sometimes you have to find out what happens next.

Sara is obsessed with rock star Tyler Vincent, and as she works to complete her senior year, she's determined to find a way to meet him—although her best friend, Aimee, keeps telling her to find a different escape from her desperately violent home life. Complications arise when Dale, the mysterious new transfer student, sets his sights on Sara, and she falls for this rock-star-

in-the-making in spite of her better judgment. When Sara wins a contest, she is faced with a choice—travel to Tyler Vincent's home town to meet him, or stay and support Dale in a Battle-of-the-Bands hosted by MTV. Their triangulated relationship is pushed to its breaking point, but there is another, deeper secret that Dale's been keeping that just may break things wide open... Turn up your collar, feather your hair, and splash on some Polo, because we're going back to the '80's when MTV played music videos, there was no such thing as American Idol, and becoming a star meant doing nothing short of crazy for that one, big break.

Travis Maddox, Eastern University's playboy, makes a bet with good girl Abby that if he loses, he will remain abstinent for a month, but if he wins, Abby must live in his apartment for the same amount of time.

New York Times bestselling author Stephen Frey writes thrillers of "ruthless financial terror" (Chicago Tribune), intricately plotted, fast-paced novels where "Grisham meets Ludlum on Wall Street" (USA Today). Now Frey has written his most exciting novel yet, taking us even deeper into the volatile world of raw ambition, million-dollar deals, and wide-eyed dreamers willing to risk everything for a profit. Hungry to leave his dead-end banking job and to play in the big leagues, Jay West lands a coveted position with the powerful investment firm of Donovan & Lloyd, working for the influential, charismatic Oliver Mason, a deal-maker with the Midas touch, a fierce ally who handpicked Jay for the job. With the incentive of a million-dollar bonus at the end of the year, Jay strives to make his mark, unaware that he is stepping into an elaborate trap--baited with the seductive promise of power and influence. Jay soon suspects that Oliver's stellar track record is more than a result of hard work or good luck. The man seems to have everything--not just fast cars and a luxurious home in Connecticut, but a violent temper, a strained marriage, and a boundless hunger for money and prestige. The stakes are raised when a trusted coworker is brutally murdered and the beautiful Sally Lane joins the team, a mysterious blonde with the ability to coax secrets out of others--while seductively keeping her own. With a conspiracy of deceit and corruption beginning to close around him, Jay races to untangle the sordid lies that have quickly and too conveniently blackened his name. Trusting no one and remaining one step ahead of both the law and his unknown adversaries, Jay must rely on his own cunning and wits to stay in the game--and to stay alive. With breakneck pacing from the opening bell, *The Insider* is a multilayered, action-packed thriller of wealth and the lust for it, heated passion and ruthless competition, survival and power--no matter the cost.

Richard North Patterson 's masterful portrayals of law and politics at the apex of power have made him one of our most important writers of popular fiction. Combining a compelling narrative, exhaustive research, and a sophisticated grasp of contemporary society, his bestselling novels bring explosive social problems to vivid life through characters who are richly imagined and intensely real. Now in *Balance of Power* Patterson confronts one of America 's most inflammatory issues – the terrible toll of gun violence. President Kerry Kilcannon and his fiancé e, television journalist Lara Costello, have at last decided to marry. But their wedding is followed by a massacre of innocents in a lethal burst of gunfire, challenging their marriage and his presidency in ways so shattering and indelibly personal that Kilcannon vows to eradicate gun violence and crush the most

powerful lobby in Washington – the Sons of the Second Amendment (SSA). Allied with the President ' s most determined rival, the resourceful and relentless Senate Majority Leader Frank Fasano, the SSA declares all-out war on Kerry Kilcannon, deploying its arsenal of money, intimidation, and secret dealings to eviscerate Kilcannon ' s crusade – and, it hopes, destroy his presidency. This ignites a high-stakes game of politics and legal maneuvering in the Senate, the courtroom, and across the country, which the charismatic but untested young President is determined to win at any cost. But in the incendiary clash over gun violence and gun rights, the cost to both Kilcannon may be even higher than he imagined. And others in the crossfire may also pay the price: the idealistic lawyer who has taken on the gun industry; the embattled CEO of America ' s leading gun maker; the war-hero senator caught between conflicting ambitions; the female senator whose career is at risk; and the grief-stricken young woman fighting to emerge from the shadow of her sister, the First Lady. The insidious ways money corrodes democracy and corrupts elected officials . . . the visceral debate between gun-rights and gun-control advocates . . . the bitter legal conflict between gun companies and the victims of gun violence . . . a ratings-driven media that both manipulates and is manipulated – Richard North Patterson weaves these engrossing themes into an epic novel that moves us with its force, passion, and authority.

Reeling from a traumatic and heart-shattering loss, Scarlett Rossi escapes back to her hometown, a place that never changes, though nothing about her is the same. The new Scar is fierce. Untouchable. Resolved to bury the twisted nightmares of that horrible night... the night when everything was stolen from her... the night that divided her life into two: before him, and after. When do-gooder Vance Holloway makes it his personal mission to cheer up the new girl at work, he has no idea what he's getting himself into. Scarlett's tough shell doesn't fool him. He knows deep down, that sweet, innocent smile still exists, and he'll stop at nothing to prove it. Patience, persistence, and a little ice cream pay off. Slowly they become friends. Then best friends. Then more. Only one problem: he was never supposed to fall in love. So begins an explosive tryst of pull and resistance between one worthy white knight, and the damsel who doesn't want to be saved. Scarlett won't survive another heartbreak. Can their friendship survive a compromise? If Vance is so determined to break down these walls, he'll have to learn – just as she did – when it comes to things like trust and love, there are always consequences. Because the last man that she loved swore to protect her, then paid with his life. And took with him a piece of her soul. Now Scarlett must decide if true strength means guarding her heart, or surrendering to it once more. One final secret remains: what really happened the night she swore she'd never love another man, and whose hands are stained with his blood? A powerful journey of love, loss, and redemption. This is a standalone and full-length novel.

In response to the coronavirus disease 2019 (COVID-19) pandemic and the societal disruption it has brought, national governments and the international community have invested billions of dollars and immense amounts of human resources to develop a safe and effective vaccine in an unprecedented time frame. Vaccination against this novel coronavirus, severe acute respiratory syndrome coronavirus 2 (SARS-CoV-2), offers the possibility of significantly reducing severe morbidity and mortality and transmission when deployed alongside other public health strategies and improved therapies. Health equity is intertwined with the impact of COVID-19 and there are certain populations that are at increased risk of severe illness or death from COVID-19. In the United States and worldwide, the pandemic is having a disproportionate impact on people who are already disadvantaged by virtue of their race and ethnicity, age, health status, residence, occupation, socioeconomic condition, or other contributing factors. Framework for Equitable Allocation of COVID-19 Vaccine offers an overarching framework for vaccine allocation to assist policy makers in the domestic and global health communities. Built on widely accepted foundational principles and recognizing the distinctive characteristics of COVID-19, this report's recommendations address the commitments needed to implement equitable allocation policies for COVID-19 vaccine.

INDIANA JONES MEETS THE X-FILES IN THIS "TAKE NO PRISONERS' (PRESTON & CHILD) SURVIVAL THRILLER OF A ROGUE ARCHAEOLOGIST TRAPPED IN A GRAND CANYON CAVE THAT'S A CONSPIRACY THEORY COME TO LIFE. Not all secrets are meant to be found. If Indiana Jones lived in the X-Files era, he might bear at least a passing resemblance to Nolan Moore -- a rogue archaeologist hosting a documentary series derisively dismissed by the "real" experts, but beloved of conspiracy theorists. Nolan sets out to retrace the steps of an explorer from 1909 who claimed to have discovered a mysterious cavern high up in the ancient rock of the Grand Canyon. And, for once, he may have actually found what he seeks. Then the trip takes a nasty turn, and the cave begins turning against them in mysterious ways. Nolan's story becomes one of survival against seemingly impossible odds. The only way out is to answer a series of intriguing questions: What is this strange cave? How has it remained hidden for so long? And what secret does it conceal that made its last visitors attempt to seal it forever?
