A courageous call to free charity from its ideological and economic constraints

Where other books on the nonprofit sector suggest ways to optimize performance inside the existing paradigm, Uncharitable suggests that the paradigm itself is the problem and calls into question our fundamental canons about charity. Author Dan Pallotta argues that society's nonprofit ethic acts as a strict regulatory mechanism on the natural economic law. It creates an economic apartheid that denies the nonprofit sector critical tools and permissions that the for-profit sector is allowed to use without restraint. These double standards place the nonprofit sector at extreme disadvantage on every level. While the for-profit sector is permitted to use all the tools of capitalism to advance the sale of consumer goods, the nonprofit sector is prohibited from using any of them to fight hunger or disease. --From publisher description.

A blueprint for a national leadership movement to transform the way the public thinks about giving. Virtually everything our society has been taught about charity is backwards. We deny the social sector the ability to grow because of our short-sighted demand that it send every short-term dollar into direct services. Yet if the sector cannot grow, it can never match the scale of our great social problems. In the face of this dilemma, the sector has remained silent, defenseless, and disorganized. In *Charity Case*, Pallotta proposes a visionary solution: a Charity Defense Council to re-educate the public and give charities the freedom they need to solve our most pressing social issues. Proposes concrete steps for how a national Charity Defense Council will transform the public understanding of the humanitarian sector, including: building an anti-defamation league and legal defense for the sector, creating a massive national ongoing ad campaign to upgrade public literacy about giving, and ultimately enacting a National Civil Rights Act for Charity and Social Enterprise. From Dan Pallotta, renowned builder of social movements and inventor of the multi-day charity event industry (including the AIDS Rides and Breast Cancer 3-Days) that has cumulatively raised over \$1.1 billion for critical social causes. The hotly-anticipated follow-up to Pallotta's groundbreaking book *Uncharitable*. Grounded in Pallotta's clear vision and deep social sector experience, *Charity Case* is a fascinating wake-up call for fixing the culture that thwarts our charities' ability to change the world.

A guide to making an impact in the world through smart philanthropy.

Mission driven—business as a vehicle for change. The current business-for-profit model rewards short-term thinking, narrow self-interest, and a social-and-environmental-costs-be-damned attitude. Non-profits, while more focused on the greater good, tend to be inherently resource-challenged and rely on increasingly scarce grants and donations to sustain their existence. Social enterprise is an exciting, blended model driven by the desire to create positive change through entrepreneurial activities. *The Art of Social Enterprise* is a practical guide which supplies everything you need to know about the mechanics of social entrepreneurship including: Startup — envisioning and manifesting intention Strategic planning — balancing social and monetary value Maintaining an even keel

Grabbing the low-hanging fruit is no longer acceptable. ZICO Coconut Water founder Mark Rampolla argues that when you choose to reach higher, you can build an incredible business, be profitable, and maybe even change the world. In 2004, Mark Rampolla was successful by most standards. There was just one problem: He wasn't inspired in his job and believed he had something more to contribute to the world. When he asked himself, "What do I have to offer that will improve the world?" Rampolla realized that his big idea was hanging right overhead. From his time living in Central America, he and his family came to love drinking coconut water, just like the locals. But no one was really selling coconut water in the United States. So Rampolla chased a very ambitious goal: introducing coconut water to the American beverage market dominated by a few big players. He wasn't just starting a business; he was creating a whole new industry. ZICO Coconut Water brought a healthy beverage alternative to American consumers while also helping developing-world growers and suppliers profit from this resource. It was a win-win-win—good for Rampolla, his customers, and the world. So good, in fact, that in 2013 the Coca-Cola Company purchased ZICO and is scaling the brand around the globe. Rampolla wrote *High-Hanging Fruit* for others who want to succeed because of, not in spite of, their values. This book is for people who believe that it's their duty to reach higher than just the bottom line to build businesses driven by passion, purpose, and integrity. Above all, it's a call to arms for a new generation of entrepreneurs who want to disrupt the old model and do good by doing business.

Can education be run as a profitable business and still be driven by a humanitarian vision? SABIS shows the answer is yes. Now with 60 schools in 15 countries and over 60,000 students, SABIS is a global education company committed to improving lives. The book is a journey through time - tracing the company from its humble origins in 1886 Mount Lebanon, through the civil war to the present day. It's also a journey through geographies, from Kurdistan to Katrina - from the first international schools in war-torn northern Iraq, to the first charter school to reopen after the hurricane devastated inner city New Orleans. SABIS goes where other educational providers are unwilling to tread, helping to rebuild lives shattered by war and natural disaster. It's finally a journey through the minds of committed educators, watching as they grapple with the fundamental question of how we educate young people in the virtues that have stood the test of time, whilst still enabling them to be prepared for a future of unknown possibilities.
