~~Basis Definition – investopedia.com~~

Basis is the total cost of buying an investment or other asset, including the price, commissions, and other charges. If you sell the asset, you subtract your basis, also known as your cost basis, from the selling price to determine your capital gain or capital loss. If you give the asset away, the recipient's basis is the same amount as yours.

~~Basis financial definition of Basis~~

In mathematics, a set B of elements in a vector space V is called a basis, if every element of V may be written in a unique way as a linear combination of elements of B . The coefficients of this linear combination are referred to as components or coordinates on B of the vector. The elements of a basis are called basis vectors. Equivalently B is a basis if its elements are linearly independent and every element of V is a linear combination of elements of B . In more general terms, a basis is a lin
