Women living in Florence during the Renaissance were the most educated in Europe although opportunities to serve assembly government, teach at the universities or to produce books of personal perspective on life were restricted to women. On the contrary, artisan women differed from elite women because they were able to work within the community.

In the time of the renaissance women were considered to legally belong to their husbands. Women were supposed to be typical 'housewives.' Though women were inferior to men, women in different classes had different roles. Low class women were expected to be housewives and take care of everything to do with the house. The expectation of working class women was a little bit different.

Renaissance? (with pictures)
The women of the
Renaissance, like women of
the Middle Ages, were denied
all political rights and
considered legally subject

The English Renaissance was a cultural and artistic movement in England dating from the late 15th century to the early 17th century. It is associated with the pan-European Renaissance that is usually regarded as beginning in Italy in the late 14th century. As in most of the rest of northern Europe, England saw little of these developments until more than a century later.
